Calabrese, Page Smith, 2010-09-16 This book focuses on using faculty mentoring to empower doctoral students to successfully complete their doctoral studies. The book is a collection of mentoring chapters showcasing professors and dissertation advisors from the most prestigious universities in the United States. They provide an extraordinary range of mentoring advice that speaks directly to the doctoral student. Each chapter addresses a professional or personal component of the doctoral process that represents how these exceptional faculty best mentor their doctoral students. Faculty contributions exemplify diverse perspectives of mentoring. a Some faculty are direct and forthright pointing the mentee toward his/her destination b some faculty share personal experiences offering mentoring advice from the perspective of someone who traveled a similar path and c some faculty structure a dialogue between the faculty as mentor and you as the doctoral student. In all cases they open possibilities for achieving success in doctoral studies. Students discover clues to follow during their doctoral journey. Whether the student is just beginning to think about entering a doctoral program presently taking course studies under stress and doesn't know what the future offers this is an ideal book because it maps the entire doctoral process.

Applications of Social Research Methods to Questions in Information and Library Science Barbara M. Wildemuth, 2016-11-14 The second edition of this innovative textbook illustrates research methods for library and information science describing the most appropriate approaches to a question and showing you what makes research successful. Written for the serious practicing librarian researcher and the LIS student this volume fills the need for a guide focused specifically on information and library science research methods. By critically assessing existing studies from within library and information science this book helps you acquire a deeper understanding of research methods so you will be able to design more effective studies yourself. Section one considers research questions most often asked in information and library science and explains how they arise from practice or theory. Section two covers a variety of research designs and the sampling issues.

associated with them while sections three and four look at methods for collecting and analyzing data Each chapter introduces a particular research method points out its relative strengths and weaknesses and provides a critique of two or more exemplary studies For this second edition three new chapters have been added covering mixed methods visual data collection methods and social network analysis The chapters on research diaries and transaction log analysis have been updated and updated examples are provided in more than a dozen other chapters as well Emerging Trends and Innovation in Sports Marketing and Management in Asia Leng, Ho Keat, 2015-01-31 Once only associated with North America and Europe formal athletic events are now becoming more prevalent in Asia as well With the expansion of this industry there is a need for efficient and strategic advertising to promote competitions events and teams Emerging Trends and Innovation in Sports Marketing and Management in Asia brings together research and case studies to evaluate and discuss the effectiveness of current methodologies and theories in an effort to improve promotional activities and the organization of all aspects of the sports industry This publication is an essential reference source for academicians researchers industry practitioners and upper level students interested in the theories and practices of sports marketing and management with a special focus on Asia **Where Parallels Intersect** Eli Cohen, **How Do They Know That?** Michael V. Angrosino, 2010-02-22 In relatively few pages Michael Angrosino delivers a high impact step by step guide to the process of social research While stressing qualitative methods he also discusses the processes and attributes of quantitative methods offering a coherent view of an eight phased research process He shows how the phases are linked how they lead logically from one to the other and how the end result can have broad implications Angrosinos description of conducting research for one of his own projects adds a real world perspective Thus students about to embark on their first independent research project or individuals with some familiarity and experience are equipped with an accessible multidisciplinary formula dovetailed with clear illustrations of how each step works Each chapter ends with a highly selective list of suggested readings for further exploration as well as discussion questions designed to apply each step in the process to a research project developed by the reader
