**Thatcherism** Mr Richard Ormrod, Professor David Pilgrim,2013-10-28 The emergence of Thatcherism around 1980 which ushered in a period of neo liberalism in British politics that still resonates today led musicians like other artists to respond to their context of production This book uses the early work of one of these musicians Elvis Costello to explore the relationship

between popular music and politics in one historical period. It is not a biography but an exploration of the interaction between a creative musician's works and their context of constraint and opportunity. Pilgrim and Ormrod unpack the political meaning of Thatcherism and deal with matters arising in that political context about Costello's life but which had resonance for many others at the time and still do. These topics include the politics of race, class, gender and ageing, emphasising the recurring theme of nostalgia in modern and post-modern life. Throughout the book examples are provided of Costello's songs and how they work musically to illustrate or stimulate the contextual discussion. The book will be of significant interest to musicologists, sociologists and social psychologists.

*Heteronormativity in Eighteenth-Century Literature and Culture* Ana de Freitas Boe, Abby Coykendall, 2016-04-22. The resurgence of marriage as a transnational institution, same sex or otherwise, draws upon as much as it departs from enlightenment ideologies of sex, gender and sexuality, which this collection aims to investigate, interrogate and conceptualize anew. Coming to terms with heteronormativity is imperative for appreciating the literature and culture of the eighteenth century writ large as well as the myriad imaginaries of sex and sexuality that the period bequeaths to the present. This collection foregrounds British, European and to a lesser extent transatlantic heteronormativities in order to pose vital if vexing questions about the degree of continuity subsisting between heteronormativities of the past and present, questions compounded by the aura of transhistoricity lying at the heart of heteronormativity as an ideology. Contributors attend to the fissures and failures of heteronormativity even as they stress the resilience of its hegemony, reconfiguring our sense of how gender and sexuality came to be mapped onto space, how public and private spheres were carved up or gendered and sexual bodies socially sanctioned and finally how literary traditions, scholarly criticisms and pedagogical practices have served to buttress or contest the legacy of heteronormativity.

*Eccentric Nation* Stephen Albert Rohs, 2009. The book takes as its point of departure the notion that a nation's music and performance culture was in the nineteenth century conceived of as the voice of its people. From ballads to parades to plays to orations, these cultural forms carried the burden of staging an identity for the national community and for the onlooking eyes of outsiders.

**Grand Designs** Lara Kriegel, 2008-01-02. Combines cultural and labor history of Victorian Britain to investigate the relationship of culture to design, the role of the marketplace in the making of cultural institutions such as museums and England's eventual loss of industrial superiority.

*Empire Islands* Rebecca Weaver-Hightower, 2007. Through a detailed unpacking of the castaway genre's appeal in English literature, *Empire Islands* forwards our understanding of the sociopsychology of British Empire. Rebecca Weaver-Hightower argues convincingly that by helping generations of readers to make sense of and perhaps feel better about imperial aggression, the castaway story in effect enabled the expansion and maintenance of European empire. *Empire Islands* asks why so many colonial authors chose islands as the setting for their stories of imperial adventure and why so many postcolonial writers write back to those island castaway narratives. Drawing on insightful readings of works from Thomas More's *Utopia* to Caribbean novels like George Lamming's *Water with Berries*.

from canonical works such as Robinson Crusoe and The Tempest to the lesser known A Narrative of the Life and Astonishing Adventures of John Daniel by Ralph Morris Weaver Hightower examines themes of cannibalism piracy monstrosity imperial aggression and the concept of going native Ending with analysis of contemporary film and the role of the United States in global neoimperialism Weaver Hightower exposes how island narratives continue not only to describe but to justify colonialism Rebecca Weaver Hightower is assistant professor of English and postcolonial studies at the University of North Dakota
