Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1977 **Coaching and Mentoring** Bob Garvey,Paul Stokes,David Megginson,2008-11-18 Coaching and mentoring are fast becoming essential aspects of modern managerial practice With this growth comes an increasing number of students embarking on mentoring and coaching courses The authors well respected and trusted scholars in the field provide an authoritative text with a comprehensive overview and critical grounding in the key concepts models and research studies in coaching and mentoring and answer important questions such as What does coaching and mentoring involve What is its value and How can the added value of mentoring and coaching be demonstrated Examples are drawn from a variety of sectors including private businesses public and voluntary organizations and schools Contemporary debates are explained and chapters include features such as case studies research questions and helpful tips to support the reader To gain a wider perspective there is a chapter which provides critical comment on the state of the art in the US while the final chapter offers the first attempt at developing a unified theory of coaching and mentoring by drawing on their respective antecedents Wanting War Jeffrey Record,2010-01-31 Wanting War is the first comprehensive analysis of the often contradictory reasons why President George W Bush went to war in Iraq and of the war's impact on future U S armed intervention abroad Though the White House sold the war as a necessity to eliminate an alleged Iraqi threat other agendas were at play Drawing on new assessments of George W Bush's presidency recent memoirs by key administration decision makers and Jeffrey Record's own expertise on U S military interventions since World War II Wanting War contends that Bush's invasion of Iraq was more about the arrogance of post Cold War American power than it was about Saddam Hussein Ultimately Iraq was selected not because it posed a convincing security threat but because Baghdad was militarily helpless Operation Iraqi Freedom was a demonstration of American power especially the will to use it Ironically as Record points out a war launched to advertise American combativeness is likely to lead U S foreign policymakers and military leaders to be averse to using force in all but the most favorable circumstances But this new respect for the limits of America's conventional military power especially as an instrument of effecting political change in foreign cultures and for the inherent risks and uncertainties of war may prove to be one of the Iraq War's few positive legacies Record argues that the American experience in Iraq ought to be a cautionary tale for those who advocate for further U S military action **Failing Our Future** Joshua R. Eyler,2024-08-27 An indictment of the grading system in American schools and colleges and a blueprint for how we can change it One of the most urgent and long standing issues in the US education system is its obsession with grades In Failing Our Future Joshua R Eyler shines a

spotlight on how grades inhibit learning cause problems between parents and children amplify inequities and contribute to the youth mental health crisis Eyler who runs the Center for Excellence in Teaching and Learning at the University of Mississippi illustrates how grades interfere with students intrinsic motivation and perpetuate the idea that school is a place for competition rather than discovery Grades force students to focus on rewards and distract them from exploring ideas or pursuing interests beyond what they ll be tested on In fact grades significantly impede the learning process They are also significantly affecting children s physical emotional and psychological well being Rates of anxiety depression and suicidal ideation have spiked and academic stress tied to grades is a leading cause of this escalation Eyler shares success stories of grading reform efforts that are already under way as an antidote to the harms caused by the practices currently used in educational institutions Equal parts scathing and hopeful Failing Our Future aims to improve the lives of students by encouraging them to define success on their own terms Parents educators policymakers and students will find in these pages a rallying cry for change and a blueprint for how to implement reforms in our homes and classrooms
