Fruitful Theology Ronni Kurtz,2022-08-30 Why do the theologians rage Even a cursory scrolling of social media may lead you to the conclusion that you have to be angry to do theology Sadly our day is characterized by theological fighting complete with harsh words exaggeration biting sarcasm and the spirit of tearing down our brothers and sisters in Christ But it does not have to be this way In fact it should not be this way In Fruitful Theology

Ronni Kurtz swims upstream to counter this prevailing problem Instead of theology leading to anger division and discord this book shows that the life of the mind can actually lead to the fruit of the Spirit Fruitful Theology is for anyone who Wants to grow in an understanding of Scripture but is afraid that knowledge will make them arrogant Is confused about the relationship between doctrine and Christian living Is concerned that theological conviction promotes disunity and discord among Christians Desires to grow in Christian maturity but isn t sure how theology fits into that desire What if our speech and conduct were seasoned more with love joy peace patience kindness goodness faithfulness gentleness and self control How might the church s unity be restored and our witness be maximized if we were characterized by the fruit of the Spirit instead of the spirit of our age Theology may not be the most obvious candidate in helping reorient our life towards the fruit of the Spirit but a right contemplation of God can indeed lead to right living for God and that is exactly what this book hopes to explore *Ethical Theory - Second Edition* Heimir Geirsson,Margaret Holmgren,2010-05-07 This first rate introduction to ethical theory contains sections on various forms of ethical theory such as egoism virtue ethics divine command theory and consequentialism Each section includes two or three of the most important contributions to the field together with brief introductions by the editors The second edition contains an improved approach to applied ethics Each chapter on moral theories now includes a selection that deals with a moral problem such as human cloning abortion and global warming The selection illustrates how the relevant theoretical approach is put to use There is therefore a much tighter integration between theory and practice than before The new edition also contains an improved section on feminist ethical theory
