The Routledge Handbook of Libertarianism Jason Brennan,Bas van der Vossen,David Schmitz,2017-08-18 Libertarians often bill their theory as an alternative to both the traditional Left and Right The Routledge Handbook of Libertarianism helps readers fully examine this alternative without preaching it to them exploring the contours of libertarian sometimes also called classical liberal thinking on justice institutions interpersonal ethics government and political economy The 31 chapters all written specifically for this volume are organized into five parts Part I asks what should libertarianism learn from other theories of justice and what should defenders of other theories of justice learn from libertarianism Part II asks what are some of the deepest problems facing libertarian theories Part III asks what is the right way to think about property rights and the market Part IV asks how should we think about the state Finally part V asks how well or badly can libertarianism deal with some of the major policy challenges of our day such as immigration trade religion in politics and paternalism in a free market Among the Handbook s chapters are those from critics who write about what they believe libertarians get right as well as others from leading libertarian theorists who identify what they think libertarians get wrong As a whole the Handbook provides a comprehensive clear eyed look at what libertarianism has been and could be and why it matters **Beyond**

Climate Change Vesselin Popovski,2018-10-03 In December 2015 196 parties to the United Nations Framework Convention on Climate Change UNFCCC adopted the Paris Agreement seen as a decisive landmark for global action to stop human induced climate change The Paris Agreement will replace the 1997 Kyoto Protocol which expires in 2020 and it creates legally binding obligations on the parties based on their own bottom up voluntary commitments to implement Nationally Determined Contributions NDCs The codification of the climate change regime has advanced well but the implementation of it remains uncertain This book focuses on the implementation prospects of the Agreement which is a challenge for all and will require a fully comprehensive burden sharing framework Parties need to meet their own NDCs but also to finance and transfer technology to others who do not have enough How equity based and facilitative the process will be is of crucial importance The volume examines a broad range of issues including the lessons that can be learnt from the implementation of previous environmental legal regimes climate policies at national and sub national levels and whether the implementation mechanisms in the Paris Agreement are likely to be sufficient Written by leading experts and practitioners the book diagnoses the gaps and lays the ground for future exploration of implementation options This collection will be of interest to

policy makers academics practitioners students and researchers focusing on climate change governance *Representations of Islam in the News* Stefan Mertens,Hedwig de Smaele,2016-04-15 The representation of Islam is unquestionably a critical test for comparing journalistic reporting across countries and cultures The Islamic religion has weight in international reporting defining what we termed foreign Islam but it is also the religion of numerically important minority groups residing in Europe national Islam The first part of the book is setting the scene Three chapters provide insights in dominant patterns of the representation of Islam as detected by various authors and studies involved with Islam representation in Europe Part two the core section of the book contributes to the development of the field of comparative journalism studies by comparing several countries and six media systems in Western Europe the Dutch speaking part of Belgium Flanders the French speaking part of Belgium Wallonia the Netherlands France Germany and the U K Part three of this book presents two reception studies one qualitative and the other quantitative Equally important as the bulk of attention goes to Western Europe is the extension towards the representation of Muslims and Islam outside Western Europe Part four of the book is devoted to the representation of Islam in some of the so called BRICs countries Russia China and India *Sharing Economy* Ming Hu,2019-01-11 This edited book examines the challenges and opportunities arising from today s sharing economy from an operations management perspective Individual chapter authors present state of the art research that examines the general impact of sharing economy on production and consumption the intermediary role of a sharing platform crowdsourcing management and context based operational problems Sharing economy refers to a market model that enables and facilitates the sharing of access to goods and services For example Uber allows riders to share a car Airbnb allows homeowners to share their extra rooms with renters Groupon crowdsources demands enabling customers to share the benefit of discounted goods and services whereas Kickstarter crowdsources funds enabling backers to fund a project jointly Unlike the classic supply chain settings in which a firm makes inventory and supply decisions in sharing economy supply is crowdsourced and can be modulated by a platform The matching supply with demand process in a sharing economy requires novel perspectives and tools to address challenges and identify opportunities The book is comprised of 20 chapters that are divided into four parts The first part explores the general impact of sharing economy on the production consumption and society The second part explores the intermediary role of a sharing platform that matches crowdsourced supply with demand The third part investigates the crowdsourcing management on a sharing platform and the fourth part is dedicated to context based operational problems of popular sharing economy applications While sharing economy is becoming omnipresence the operations management OM research community has begun to explore and examine different business models in the transportation healthcare financial accommodation and sourcing sectors This book presents a collection of the state of the art research work conducted by a group of world leading OM researchers in this area Not only does this book cover a wide range of business models arising from the sharing economy but it also showcases different modeling frameworks and

research methods that cannot be missed Ultimately this book is a tour de force informative and insightful Christopher S Tang Distinguished Professor and Edward Carter Chair in Business Administration UCLA Anderson School of Management The Road to Serfdom David Linden, Nick Broten, 2017-07-05 Friedrich Hayek's 1944 *Road to Serfdom* is a classic of conservative economic argument While undeniably a product of a specific time in global politics which saw the threat of fascism from Nazi Germany and its allies beguilingly answered by the promises of socialism Hayek's carefully constructed argument is a fine example of the importance of good reasoning in critical thinking Reasoning is the art of constructing good persuasive arguments by organizing one's thoughts supporting one's conclusions and considering counter arguments along the way The *Road to Serfdom* illustrates all these skills in action Hayek's argument was that while many assumed socialism to be the answer to totalitarian fascist regimes the opposite was true Socialist government's reliance on a large state centralised control and bureaucratic planning he insisted actually amounts to a different kind of totalitarianism Freedom of choice Hayek continued is a central requirement of individual freedom and hence a centrally planned economy inevitably constrains freedom Though many commentators have sought to counter Hayek's arguments his reasoning skills won over many of the politicians who have shaped the present day most notably Margaret Thatcher and Ronald Reagan **The New EU Judiciary** Emmanuel Guinchard, Marie-Pierre Granger, 2016-12-15 The Court of Justice of the European Union CJEU has started to implement what is arguably the most significant set of reforms since the Nice Treaty with notably the doubling of the number of judges at the General Court and the disappearance of the Civil Service Tribunal Controversies surrounding the process and outcomes of the reforms called for a broader reflection on the European Courts and the way they cope with old and new challenges To this end this volume brings together junior and seasoned academics and practitioners to take stock of the various aspects of these reforms and the overall functioning of the EU Judiciary from comparative insider and outsider perspectives Broadening and deepening our understanding of the reorganisation of the EU Judiciary the contributors offer incisive analyses of reforms and evolutions including a critical appraisal of the reform process and the role and powers of the CJEU implications of the reforms for the Court of Justice and the General Court lessons from the practice of the now dismantled Civil Service Tribunal a reflection on the future Unified Patent Court an evaluation of the role of the CJEU's members and staffs and their selection an insider's perspective into the workings of the repeat players Legal Services of the European Commission and of the European Parliament and the parties lawyers an assessment of the procedural reforms before the Court of Justice and the General Court with a specific focus on the PPU the unfolding and impact of the digital revolution e Curia on the CJEU the challenges of the languages regime and legal reasoning before the CJEU Comparative perspectives elucidate specific judiciary reforms across Europe including detailed analyses of developments at the European Court of Human Rights the French Conseil Constitutionnel and the Supreme Court of the United Kingdom As a timely assessment of the effects of recent reforms on the EU Courts decision making practices roles and identities and more broadly

on the legitimacy of the EU and its institutions as a whole this book is unparalleled It will be of great value to practitioners engaged in EU litigation scholars of European law and policymakers at EU institutions and all those interested in judicial process and reform
