INTER-ENG 2020 Liviu Moldovan, Adrian Gligor, 2021-05-31 These proceedings contain research papers that were accepted for presentation at the 14th International Conference Inter Eng 2020 Interdisciplinarity in Engineering which was held on 8-9 October 2020 in Târgu Mureș, Romania. It is a leading international professional and scientific forum for engineers and scientists to present research works, contributions, and recent developments, as well as current practices in engineering, which is falling into a tradition of important scientific events occurring at the Faculty of Engineering and Information Technology in the George Emil Palade University of Medicine, Pharmacy, Science, and Technology of Târgu Mureș, Romania. The Inter Eng conference started from the observation that in the 21st century, the era of high technology without new approaches in research, we cannot speak of a harmonious society. The theme of the conference, proposing a new approach related to Industry 4.0, was the development of a new generation of smart factories based on the manufacturing and assembly process, digitalization related to advanced manufacturing technology, lean manufacturing, sustainable manufacturing, additive manufacturing, and manufacturing tools and equipment. The conference slogan was "Europe's future is digital," a broad vision of the Industry 4.0 concept beyond direct manufacturing in the company.

Powerboater's Guide to Electrical Systems, Second Edition Edwin R. Sherman, 2007-07-22 Understand, troubleshoot, repair, and upgrade your boat's electrical systems. Frustrated by the high cost of basic electrical work but nervous about tackling such projects yourself? Get sound advice and guidance from author Ed Sherman, who wrote and teaches the American Boat & Yacht Council's certification program for electrical technicians. In *Powerboater's Guide to Electrical Systems*, he combines basic theory with step-by-step directions for troubleshooting problems, making repairs, and installing new equipment. Learn to draw up a wiring diagram for your boat. Locate and identify wiring and circuit components. Select and use a multimeter. Choose and maintain battery and marine ignition systems. Troubleshoot starting, charging, and instrument problems. Install DC and AC marine accessories, equipment, and electronics. Ed Sherman's nationally recognized expertise in electrical systems in boats makes him a natural choice to train and certify marine electricians. He believes, as I do, that doing it right the first time will surely enhance your boating experience.
