Translating England into Russian Elena Goodwin, 2019-12-26 From governesses with supernatural powers to motor car obsessed amphibians the iconic images of English children's literature helped shape the view of the nation around the world But as *Translating England into Russian* reveals Russian translators did not always present the same picture of Englishness that had been painted by authors In this book Elena Goodwin explores Russian translations of classic English children's literature considering how representations of Englishness depended on state ideology and reflected the shifting nature of Russia's political and cultural climate As Soviet censorship policy imposed restrictions on what and how to translate this book examines how translation dealt with and built bridges between cultures in a restricted environment in order to represent images of England Through analysing the Soviet and post Soviet translations of Rudyard Kipling Kenneth Grahame J M Barrie A A Milne and P L Travers this book connects the concepts of society ideology and translation to trace the role of translation through a time of transformation in Russian society Making use of previously unpublished archival material Goodwin provides the first analysis of the role of translated English children's literature in modern Russian history and offers fresh insight into Anglo Russian relations from the Russian Revolution to the present day This ground breaking book is therefore a vital resource for scholars of Russian history and literary translation [English-Russian Grammar, or, Principles](#)

place as a world superpower are the keys to Putin's Russia Japanese Training and Research in the Russian Field Peter Berton, Paul Fritz Langer, Rodger Swearingen, 1956 *Translating Russian Literature in the Global Context* Muireann Maguire, Cathy McAteer, 2024-04-03

Translating Russian Literature in the Global Context examines the translation and reception of Russian literature as a world wide process. This volume aims to provoke new debate about the continued currency of Russian literature as symbolic capital for international readers in particular for nations seeking to create or consolidate cultural and political leverage in the so called World Republic of Letters. It also seeks to examine and contrast the mechanisms of the translation and uses of Russian literature across the globe. This collection presents academic essays grouped according to geographical location by thirty seven international scholars. Collectively their expertise encompasses the global reception of Russian literature in Europe the Former Soviet Republics Africa the Americas and Asia. Their scholarship concentrates on two fundamental research areas firstly constructing a historical survey of the translation publication distribution and reception of Russian literature or of one or more specific Russophone authors in a given nation language or region and secondly outlining a socio cultural microhistory of how a specific highly influential local writer genre or literary group within the target culture has translated transmitted or adapted aspects of Russian literature in their own literary production. Each section is prefaced with a short essay by the co editors surveying the history of the reception of Russian literature in the given region. Considered as a whole these chapters offer a wholly new overview of the extent and intercultural penetration of Russian and Soviet literary soft power during the twentieth and twenty first centuries. This volume will open up Slavonic Translation Studies for the general reader the student of Comparative Literature and the academic scholar alike.
