economic activity including trade real and financial investment tourism and communication happens locally not internationally In this semiglobalized approach companies can cross borders more profitably by basing their strategies on the geopolitical differences that matter they must identify the barriers their strategies will have to overcome and they must build bridges to cross those barriers Based on rigorous research Pankaj Ghemawat shows how to create successful strategies and provides practical management tools so you can Assess the cultural administrative geographic and economic differences between regions at the industry level and decide which ones require attention Track the implications of the specific border crossing actions that will impact your company s ability to create value the most Generate superior performance through strategies that are optimized for the three A s adaptation adjusting to differences aggregation overcoming differences and arbitrage exploiting differences Using in depth examples Ghemawat reveals how companies such as Cemex Toyota Procter Gamble Tata Consultancy Services IBM and GE Healthcare are adroitly managing cross border differences He also shares examples of other well known companies that have failed at this challenge Crucial for any business competing across borders Redefining Global Strategy will help you make the most of our semiglobalized world *Rethinking the Politics of Globalization* Iain Watson,2002 *Redefining the Role of Language in a Globalized World* Wang, Ai-Ling,2021-01-22
