English ,1981 Secondary School External Examination Systems Barend Vlaardingerbroek,Neil Taylor,2009 Summative assessment has been a contentious issue in educational circles for several decades particularly high stakes assessment events which arise at various junctures of the school cycle especially those at the end of it The French Baccalaureat and English A Levels and their numerous clones throughout the francophone and anglophone worlds are household names and represent milestone events in people s lives as their outcomes are principal determinants of young people s future prospects These examinations are external they are devised conducted and processed by agencies outside the schools usually ministerial examination units As such they act as blind arbiters of student achievement providing the proverbial level playing field which ensures the comparability of outcomes In the pyramidal school structures of yesteryear examinations acted as filters regulating the progression of pupils to subsequent tiers of formal education Exit points occurred from primary school level up from where unsuccessful candidates could enter the labour force and or embark on occupationally specific further education and training With the modernisation of the labour market and an ever higher social demand for access to higher levels of formal education the filtering function of examinations at lower levels of schooling has been gradually eroded while burgeoning numbers of students at the upper secondary level have brought about reforms that include curricular diversification and sometimes radical overhauls of terminating assessment systems including the modification and in some instances abandonment of external examinations This edited volume brings together the experiences of twenty examination systems from around the world to show how these dynamic entities have adapted over time to the changing context of schooling Following an introduction by Stephen P Heyneman of World Bank repute there are sixteen chapters presenting Country Case Studies which have been written up under common subheadings thereby highlighting the comparative nature of the work and facilitating cross referencing The subsequent four chapters elaborate on the theme of external examinations beyond national borders including a contribution by the International Baccalaureate Organisation A defining feature of the work is the attention it pays to what it calls the nuts and bolts of external examinations

from question setting to grading procedures These are it is argued instrumental in nurturing and maintaining public confidence in external examinations The book will be of immense value to people involved in educational policy studies especially strategic educational planning as well as those directly concerned with formal assessment The work has been written to appeal to a wide audience of informed persons it is accessible to teachers and interested laypeople as well as to academics Borneo Review ,1993 **Finding Malaysia** Zairil Khir Johari, Some of the most engaging contemporary writing has seen the transformation of the political column into a literary art form an important way of taking in the world and thinking deeply about it In his first collection of essays Zairil Khir Johari offers quick witted and focused reflections on some of the most pressing and contentious issues of the day At the heart of the matter is the bane of Malaysian politics the ethnic question from which he explores a range of high profile issues identity secularism federalism the economy good governance and education After sixty years of nationhood Zairil finds much that is wrong with Malaysia Its eccentricities are by no means benign Yet these essays also offer answers to his own assertion that we need to move beyond this At once both philosophical and practical Finding Malaysia lays down a marker for any serious debate over the future trajectory of the country 國家與社會-第4集 , 國家與社會-第6集 ,
