plantation areas of the Southern States After the Civil War and the abolition of slavery it wasnt until the early 1920s and 30s that blacks were beginning to experiment with other faiths Of all the faiths Islam became the fastest growing religion and the most popular This book by far is in no way a research into black history instead it covers a more deeper aspect of history in which I call the history behind the history It explores the true Asiatic origins of the ancient religions of Hinduism Buddhism well as the Islamic faith Finally It explores the Masonic symbolisms of alis Moorish science dogma digging deeper into the esoteric side of his Aquarian Masonic teaching explaining their origins and discovering an age old wisdom that had been kept hidden from the human eye One would think that Africans in the Americas would have rejected the religious tradition of their European oppressors taking into consideration that African religions are far older they possess more sources of knowledge spiritual salvation Yet there are those who have turned away from traditional Christian dominated environments in order to find a greater understanding of themselves and the world in which they live One alternative has been to seek knowledge in the various religious groups that arose in the 20th century *Educational Study and Reading Courses* Thomas Nelson & Sons,1925
