*The Best 378 Colleges* Princeton Review (Firm), Robert Franek, 2013-08 A survey of life on the nation's campuses offers detailed profiles of the best colleges and rankings of colleges in sixty two different categories along with a wealth of information and applications tips *Spying on Students* Gregg L. Michel, 2024-09-04 Gregg L Michel's *Spying on Students* focuses on the law enforcement campaign against New Left and progressive student activists in the South during the 1960s Often overlooked by scholars white southern students worked alongside their Black peers in the civil rights struggle drove opposition to the Vietnam War and embraced the counterculture's rejection of conventions and norms While African Americans bore the brunt of police surveillance and harassment federal agencies such as the FBI and local police intelligence units known as Red Squads subjected white student activists to wide ranging intrusive and illegal monitoring By examining the experiences of white students in the South Michel provides fresh insights into the destructive weaponized spying tactics

deployed by state actors in their attempts to quash dissent in the region Drawing on previously secret FBI files and records of other investigative agencies Michel demonstrates that authorities at all levels of government turned the full power of their offices against white activists listening to their conversations infiltrating their meetings and sowing discord within their families and schools Efforts to surveil and repress social activism reflected officials fear of growing unrest on the part of white students who questioned the southern racial status quo and recoiled as the horrors of Vietnam laid bare the shibboleth of American exceptionalism As white students revolted on campuses elsewhere most notably at Berkeley and Columbia law enforcement sought to curtail such disruptions in the South In their view white students threatened domestic tranquility and therefore warranted close monitoring *Spying on Students* presents a unique perspective on state actors war on dissent exposing their suspicion of opposing political beliefs and revealing their paranoia as they sought to preserve the existing racial order The work complicates further the dominant narrative of the era that casts white southern students as opponents of social change The counterintelligence operations employed against them show not only that white students valued political engagement and social activism but also that authorities considered them a menace to the country as a whole

**South Carolina Women** Marjorie Julian Spruill, Valinda W. Littlefield, Joan Marie Johnson, 2012-06-01 Covering an era from the early twentieth century to the present this volume features twenty seven South Carolina women of varied backgrounds whose stories reflect the ever widening array of activities and occupations in which women were engaged in a transformative era that included depression world wars and dramatic changes in the role of women Some striking revelations emerge from these biographical portraits in particular the breadth of interracial cooperation between women in the decades preceding the civil rights movement and ways that women carved out diverse career opportunities sometimes by breaking down formidable occupational barriers Some women in the volume proceeded cautiously working within the norms of their day to promote reform even as traditional ideas about race and gender held powerful sway Others spoke out more directly and forcefully and demanded change Most of the women

featured in these essays were leaders within their respective communities and the state. Many of them such as Wil Lou Gray, Hilla Sheriff, and Ruby Forsythe dedicated themselves to improving the quality of education and health care for South Carolinians. Septima Clark, Alice Spearman, Wright Modjeska Simkins, and many others sought to improve conditions and obtain social justice for African Americans. Others including Victoria Eslinger and Tootsie Holland were devoted to the cause of women's rights. Louise Smith, Mary Elizabeth Massey, and Mary Blackwell Butler entered traditionally male-dominated fields, while Polly Woodham and Mary Jane Manigault created their own small businesses. A few including Mary Gordon Ellis, Dolly Hamby, and Harriet Keyserling exercised political influence. Familiar figures like Jean Toal, current chief justice of the South Carolina Supreme Court, are included, but readers also learn about lesser-known women such as Julia and Alice Delk, sisters employed in the Charleston Naval Yard during World War II.

**Human Migration** J. J. Mangalam, 2021-10-21 In this guide to the literature on human migration, J. J. Mangalam indexes over 2,000 titles that appeared in English from 1955 through 1962. An important feature of this work is the annotation of nearly 400 major articles on migration. These annotations provide information on the main focus of the study, the hypotheses tested, and any special measuring devices employed. The conclusions are also given, using the authors' words whenever possible. To facilitate the use of this guide, the author has compiled an index that lists not only the subjects treated but also the major variables used in each abstracted study, thus the researcher who is interested in the use of certain variables can easily refer to the previous investigation of the influence of these factors upon migration. In a comprehensive introduction, Mangalam surveys the current state of studies of human migration and suggests a theoretical framework by which the vast amount of existing facts from different migration studies can be integrated and given meaning.
