

Catch 22 Dialectical Journal

Catch-22 by Joseph Heller is a story set during the second half of World War II, revealing the lives of soldiers, the dilemmas of war and the paradoxes made to keep men in war by army leaders. The main character, John Yossarian is a US Air Force bombardier who has a strong desire to stay out of war, but unfortunately is unable to because of the standards set by the government, increasing the number of missions a soldier had to fly before he could leave. His squadron is stationed on the island of Pianosa, near the Mediterranean Sea. The main paradox was that if a man proved his insanity, he would have to fly his missions in order to prove his insanity, yet if he went sane, he would still stay in war and fly. Either way, all soldiers, sane or not, had to stay...[about more content...](#)

It was to keep living, because death was at the corner for every man, as the average death rate was 2% per mission. Heller remarked how "the enemy is anybody who's going to get you killed, no matter which side he is on." This describes how the army began to lose faith in each other and turned only to survive, as was the basic instinct of the human nature, stripped of all its values and sentiments. They learned to keep surviving for themselves instead of defending their country once they realized the war was useless and they were probably going to die eventually. This is important because it shows the true nature of the men in the army during the Vietnam.

Children, Young People and Online Harms Emily Setty, Faith Gordon, Emma Nottingham, 2024-02-23 This book presents research conducted with children and young people about online harms with a UK focus while aiming to stimulate comparative analyses of other countries too While the chapters vary in how data driven they are each will explore conceptualisations of online harm children and young people s experiences of online harms and their perspectives on interventions to educate about and address online harms While the UK government claimed in 2019 to be introducing tough new measures to make the UK the safest place to be online it has been noted that there may be a limited capacity for formal legislation to address the complexities of contemporary digital life for children and young people instead tackling online harms has to be part of a broader agenda and must account for the diverse and socially contingent nature of children s and young people s experiences online as evidenced by extensive research undertaken with children and young people With the finalisation of legislation surrounding online harms in the UK imminent the objective of this collection is to shape the implementation of policy in practice settings To support practice development the book offers vignette style pieces that will describe examples of policy and practice models and how these models can support children s and young people s active participation in understanding online harms As a result of this the findings of this book will minimise the disparity between the practice policy and research through speaking to the interface between these fields in the UK context
