Franklin,2013 This book will help readers understand more about gerontological nursing how the different nursing
specialties interact and the necessity for multidisciplinary team approaches to improve systems in the industry The book also
highlights some of the many individuals who have contributed to reaching for higher care levels in nursing homes Innovative
processes such as the Eden Alternative and the Quality Indicator Survey process are introduced which will assist people to
understand the wide range of ways in which the system can be improved As the author emphasizes throughout the book the
psychology of kindness is essential and needs to be demonstrated by everyone in the gerontological field from care providers
to families and patients Emotions can run high as patients and families may be frightened confused and concerned about
making good decisions while the care providers are themselves working hard to provide appropriate care while coping with
multiple demands Consideration and humor are in fact most important for creating a positive atmosphere for those in nursing
