A People's History of Detroit Mark Jay, Philip Conklin, 2020-04-17 Recent bouts of gentrification and investment in Detroit have led some to call it the greatest turnaround story in American history Meanwhile activists point to the city s cuts to public services water shutoffs mass foreclosures and violent police raids In *A People's History of Detroit* Mark Jay and Philip Conklin use a class framework to tell a sweeping story of Detroit from 1913 to the present embedding Motown s history in a global economic context Attending to the struggle between corporate elites and radical working class organizations Jay and Conklin outline the complex sociopolitical dynamics underlying major events in Detroit s past from the rise of Fordism and the formation of labor unions to deindustrialization and the city s recent bankruptcy They demonstrate that Detroit s history is not a tale of two cities one of wealth and development and another racked by poverty and racial violence rather it is the story of a single Detroit that operates according to capitalism s mandates

Crime and Criminal Justice in American Society Randall G. Sheldon, William B. Brown, Karen S. Miller, Randal B. Fritzler, 2015-06-22 Today s headlines vividly illustrate the importance of understanding aspects of the criminal justice system too often ignored While the second edition of *Crime and Criminal Justice in American Society* includes the most recent statistics on the police courts and corrections its provocative current examples also spur critical thinking about justice in the United States The authors offer an alternative interpretation of criminal justice rarely presented in traditional textbooks or by the media They encourage readers to examine their beliefs about crime punishment and the law Discussions in the chapters about how African Americans Hispanics whites women juveniles the rich and the poor experience crime and the criminal justice system contribute context for understanding different viewpoints The poor and minorities are the most likely to be caught in the net of criminal justice but inequities have consequences for everyone Reflection on various perspectives provides helpful input for assessing attitudes and for becoming actively involved

with issues that have significant consequences Eighteen thoroughly revised chapters present historical backgrounds theories and emerging issues New to the second edition is a chapter on veterans involved in the criminal justice system Affordable succinct and engaging this textbook presents the key concepts of the criminal justice system at less than half the cost of many competing textbooks **Prose and Cons** D. Quentin Miller,2005-10-04 As the United States prison population has exploded over the past 30 years a rich provocative and ever increasing body of literature has emerged written either by prisoners or by those who have come in close contact with them Unlike earlier prison writings contemporary literature moves in directions that are neither uniformly ideological nor uniformly political It has become increasingly personal and the obsessive subject is the way identity is shaped compromised altered or obliterated by incarceration The 14 essays in this work examine the last 30 years of prison literature from a wide variety of perspectives The first four essays examine race and ethnicity the social categories most evident in U S prisons The three essays in the next section explore gender a prominent subject of prison literature highlighted by the absolute separation of male and female inmates Section three provides three essays focused on the part ideology plays in prison writings The four essays in section four consider how aesthetics and language are used seeking to define the qualities of the literature and to determine some of the reasons it exists

Abolition Revolution Aviah Sarah Day,Shanice Octavia McBean,2022-11-01 George Floyd s murder in Minneapolis triggered abolitionist shockwaves Calls to defund the police found receptive ears around the world Shortly after Sarah Everard s murder by a serving police officer sparked a national abolitionist movement in Britain But to abolish the police prisons and borders we must confront the legacy of Empire Abolition Revolution is a guide to abolitionist politics in Britain drawing out rich histories of resistance from rebellion in the colonies to grassroots responses to carceral systems today The authors argue that abolition is key to reconceptualising revolution for our times linking it with materialist feminisms anti capitalist class struggle internationalist solidarity and anti colonialism Perfect for reading groups and activist meetings this is an invaluable book for those new to abolitionist politics whilst simultaneously telling a passionate and authoritative story about the need for abolition and revolution in Britain and globally Incarcerating the Crisis Jordan T. Camp,2016-04-18 The United States currently has the largest prison population on the planet Over the last four decades structural unemployment concentrated urban poverty and mass homelessness have also become permanent features of the political economy These developments are without historical precedent but not without historical explanation In this searing critique Jordan T Camp traces the rise of the neoliberal carceral state through a series of turning points in U S history including the Watts insurrection in 1965 the Detroit rebellion in 1967 the Attica uprising in 1971 the Los Angeles revolt in 1992 and events in post Katrina New Orleans in 2005 Incarcerating the Crisis argues that these dramatic events coincided with the emergence of neoliberal capitalism and the state s attempts to crush radical social movements Through an examination of the poetic visions of social movements including those by James Baldwin Marvin Gaye June Jordan Jos Ram rez and Sunni

Patterson it also suggests that alternative outcomes have been and continue to be possible

Black Revolutionaries Joe Street, 2024-11 Black Revolutionaries is an accessible yet rigorously argued history of the Black Panther Party BPP one of the emblematic organizations of the 1960s Joe Street highlights the complexity of the BPP's history through three key themes the BPP's intellectual history its political and social activism and the persecution its members endured Together these themes confirm the BPP's importance in understanding Black America's response to white oppression in the 1960s and 1970s Based on a wealth of archival material Black Revolutionaries reveals the enduring importance of leftist political philosophy to 1960s and 1970s radicalism and how the BPP helps us to understand more deeply the role of public space and public protest in the 1960s Street shows how the BPP were key to the transformation of political activism in the post civil rights era As the BPP faced the psychological and organizational impacts of FBI surveillance police repression and imprisonment Street examines how these negative forces helped to shape and destroy the BPP Most significantly Black Revolutionaries demonstrates that an understanding of African American grassroots politics and protest racial injustice and police brutality in the post civil rights era is only comprehensible through engagement with the BPP's history

Politics in Captivity Lena Zuckerwise, 2024-07-02 From the 1811 German Coast Slave Rebellion to the 1971 Attica Prison Uprising from the truancy of enslaved women to the extreme self discipline exercised by prisoners in solitary confinement Black Americans have through time resisted racial regimes in extraordinary and everyday ways Though these acts of large and small scale resistance to slavery and incarceration are radical and transformative they have often gone unnoticed This book is about Black rebellion in captivity and the ways that many of the conventional well worn constructs of academic political theory render its political dimensions obscure and indiscernible While Hannah Arendt is an unlikely theorist to figure prominently in any discussion of Black politics her concepts of world and worldlessness offer an indispensable framework for articulating a theory of resistance to chattel and carceral captivity Politics in Captivity begins by taking seriously the ways in which slavery and incarceration share important commonalities including historical continuity In Zuckerwise's account of this commonality the point of connection between enslaved and incarcerated people is not exploited labor but rather resistance The relations between the rebellions of both groups appear in the writings of Muhammed Ahmad Angela Davis George Jackson Ruchell Magee and Assata Shakur a genre Zuckerwise calls Black carceral political thought The insights of these thinkers and activists figure into Zuckerwise's analyses of largescale uprisings and quotidian practices of resistance which she conceives as acts of world building against conditions of forced worldlessness In a moment when a collective racial reckoning is

underway when Critical Race Theory is a target of the Right when prison abolition has become more prominent in mainstream political discourse it is now more important than ever to look to historical and contemporary practices of resistance to white domination Revolutionary Activities Directed Toward the Administration of Penal Or Correctional Systems United States.
