1. As you read the passage, fill in the information you discover about the Soviet-American agreement below.

	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space programs and rockets?	That U.S. support them economically (training, fuel, etc.)	Not really.
2. Would anyone benefit from the rockets and satellites they could build?	They would certainly produce satellites that were better. They would improve delivery of aid.	They might develop better in case of emergencies, but they didn't know anyone thought planned system was needed at all (except Chicago Radio, etc.)
3. Would anyone challenge either side?	Not really.	Others might be tempted to join, but independence was important.
4. Would what the Americans asked could change American society?	Yes, the government could be stronger. There'd be a stronger military.	Yes, American people were surprised and would not take a revolution like Russia.

2. What do you think is going on in the following sentences?

There (were) thousands of satellites.

Many had been manufacturing for years.

However, because of the government the satellites were not used.

They wanted to know how they got their own satellites.
