Susan Aaronson highlights a previously ignored dimension of the United States trade policy public understanding Focusing on the debate over the three mechanisms designed to govern world trade the International Trade Organization ITO the General Agreement on Tariffs and Trade GATT and the World Trade Organization WTO she examines how policymakers communicate and how the public comprehends trade policy Since 1947 the U S has led global efforts to free trade and support for freer trade policies and for an international organization to govern world trade has become dogma among policymakers business leaders and economists Relying on archival research polling data public documents interviews and Congressional testimony Aaronson shows that the public also matters in trade policy decisions If concerns about the implications of economic interdependence remain unaddressed American trade policy and an international trade organization are vulnerable to a surge of populism and isolationism While Americans became addicted to imported cars radios computers and appliances a growing number saw the costs of freer trade policies in the nation's slums poverty statistics crime rate and unemployment figures Concerns about freer trade policies reached a crescendo in the mid 1990s especially as Congress debated U S participation in the North American Free Trade Agreement NAFTA Aaronson suggests ways to create greater public understanding for the GATT WTO and international trade If national trade policy is to play in Peoria Americans must first understand it
