Sugarman, Frank R. Kemerer,2011-12-01 In this important new volume distinguished legal and public policy scholars address issues that are critical to the successful drafting and implementation of school choice programs yet are usually overlooked in the choice debate They explore whether school choice is a threat or an opportunity to the many children who are largely deprived of choice today and they offer a variety of perspectives with some authors enthusiastic others more skeptical The book begins with a discussion of the types and extent of school choice what is known about its consequences and how politics has influenced its development It then focuses on three important public policy issues how school choice can revolutionize the way schools are financed what policy interventions are necessary to

increase the supply of choice schools and how choice programs can be held accountable to parents and the state without undermining institutional autonomy The book addresses legal issues including whether public and private choice schools will be required to observe student and teacher rights generally recognized in traditional public schools how the religion and speech clauses of the First Amendment may affect the participation of religious schools in school choice programs whether school choice will enhance or aggravate opportunities for racial justice what the implications of school choice are for teacher unions and collective bargaining and whether children with disabilities will be accommodated in school choice programs under federal disability law Throughout the book the authors offer recommendations for public policy development The contributors are Jeffrey Henig Robert Bulman and David L Kirp Paul T Hill Robert M O Neil Jesse H Choper Betsy Levin William G Buss and Laura F Rothstein Stephen D Sugarman is Agnes Roddy Robb Professor of Law at the University of California Berkeley Frank R Kemerer is Regents Professor and director of the Center for

[The School Voucher Illusion](#) Kevin Welner,Gary Orfield,Luis A. Huerta,2023 This authoritative book examines the long standing campaign that resulted in today s school voucher policies Advocates of private school vouchers promulgated a vision of service to low income families students of color and other marginalized student populations Vouchers were sold as a way to advance civil rights But as voucher policies grew in size and became an element of Republican orthodoxy they evolved into subsidies for a broad swath of advantaged families with minimal antidiscrimination protections The approach also transmuted into forms like education savings account programs and vouchers funded through tax credited donations In this book scholars and national experts untangle this complex story to show how law and policy have aligned to dramatically alter the likely future of American schooling They offer recommendations for modifying current policies with the goal of capturing more of the originally stated vision of voucher programs equitable access to quality schooling protection of all students civil rights and advancement of the wider societal goals of a democratic educational system Book Features Shows how a fast growing policy is transforming education in the United States in ways that are very

different from how that policy was sold to the public Sets the stage with a discussion of the history and legal dimensions of voucher battles as well as the politics of policy change Examines the basic structure of contemporary private schooling the Southern history of vouchers and the key federal court decisions that have opened the door to an explosion of state legislation Offers profiles of voucher policies in two states that have made the largest efforts to support vouchers as well as the only nationally funded program in the nation s capital Edited by three scholars with extensive experience in the study of school choice with chapters by national experts who have produced seminal work in the field
