

Direct Instruction Lesson Plan Template

General Information	
Lesson Title: Whole Fractions	
Subject(s): Math	
Grade/Level/Setting: this is a first-grade classroom.	
Prerequisite Skills/Prior Knowledge: <i>What do your students already know, or what do they need to know about the selected topic to participate in the lesson successfully?</i> The students will already know that fractions have a numerator and a denominator. They will also learn how to use fraction circle manipulatives.	
Standards and Objectives	
State/National Academic Standard(s): 1.6.4 Partition circle and rectangles into two and four equal parts; describe the parts using the words halves, fourths, and quarters; and use the phrases half of, fourth of, and a quarter of. Describe the whole as two of, or four of, the parts. Understand for partitioning circles and rectangles into two and four equal parts that decomposing into equal parts creates smaller parts. https://www.doe.in.gov/sites/default/files/standards/grade-1-math-standards-updated-march-2020.pdf	
Learning Objective(s): <i>Identify what students will accomplish by the end of the lesson; it needs to align with the state or Common Core State Standards and be measurable (condition, behavior, and criterion).</i> When the students are presented with an end of lesson Fraction, students will be able to identify parts of a whole in terms of halves, fourths, and quarters with 4/5 answers correct.	
Materials	Technology
<i>What materials will the teacher and the students need in order to complete the lesson?</i> TOOL: fraction circle Whiteboard Smartboard Fraction quiz Paper Scissors Hershey bar	<i>How will you use technology to enhance teaching and learning? (Optional: Use the SAMR model to explain the technology integration strategies you plan to use.)</i> We will be using the smartboard to draw up the fractions so that students can understand the concepts of the fractions.
Language Demands	
<i>Specific ways that academic language (vocabulary, functions, discourse, syntax) is used by students to participate in learning tasks through reading, writing, listening, and/or speaking to demonstrate their understanding.</i>	
Language Function(s): <i>The content and language focus of the learning task is represented by the active verbs within the learning outcomes. Common language functions include identifying main ideas and details, analyzing and interpreting characters or events, arguing a position or point of view, or predicting, recording, and evaluating data. Common language functions in math include predicting from models and data, recording multiple ways to solve problems, justifying conclusions, evaluating data, and explaining how or why certain strategies work.</i> The students will use mathematical terms to be able to explain the parts of a whole fraction.

Teaching Teachers James W. Fraser, Lauren Lefty, 2018-10-01 Teacher education in America has changed dramatically in the past thirty years with major implications for how our kids are taught As recently as 1990 if a person wanted to become a public school teacher in the United States he or she needed to attend an accredited university education program Less than three decades later the variety of routes into teaching is staggering In *Teaching Teachers* education historians James W Fraser and Lauren Lefty look at these alternative programs through the lens of the past Fraser and Lefty explain how beginning in 1986 an extraordinary range of new teaching programs emerged most of which moved teacher education out of universities In some school districts and charter schools superintendents started their own teacher preparation programs sometimes in conjunction with universities sometimes not Other teacher educators designed blended programs creating collaboration between university teacher education programs and other parts of the university linking with school districts and independent providers and creating a range of novel options Fraser and Lefty argue that three factors help explain this dramatic shift in how teachers are trained an ethos that market forces were the solution to social problems long term dissatisfaction with the inadequacies of university based teacher education and the frustration of school superintendents with teachers themselves who can seem both underprepared and too quick to challenge established policy Surveying which programs are effective and which are not this book also examines the impact of for profit teacher training in the classroom Casting light on the historical and social forces that led to the sea change in the ways American teachers are prepared *Teaching Teachers* is a substantial and unbiased history of a controversial topic
