*The State, Class and Developmentalism in South Korea* Hae-Yung Song,2019-10-16 This book problematises the statist underpinnings of the concept of the developmental state in terms of both state society and national global relations challenging the notion that the state is the agent of national development qua being autonomous from the domestic and global economies Presenting a thorough and comprehensive critical assessment of the extant approaches and theories of the Korean developmental state in particular this book demonstrates that the existing literature including Marxist critiques only inadequately and partially challenge statism It examines how statism reinforces and is reinforced by Third World Developmentalism the idea that
