Digital transition in education AI and learning analytics in engineering education Diversity in engineering education The  
authors are currently witnessing a significant transformation in the development of education on all levels and especially in  
post secondary and higher education To face these challenges higher education must find innovative and effective ways to  
respond in a proper way Changes have been made in the way we teach and learn including the massive use of new means of  
communication such as videoconferencing and other technological tools Moreover the current explosion of artificial  
intelligence tools is challenging teaching practices maintained for centuries Scientifically based statements as well as  
excellent best practice examples are necessary for effective teaching and learning engineering The 27th International
