Simon Francis Gaine, 2015-08-27](#) Did Jesus enjoy the beatific vision of God on earth that Christians hope to enjoy only in heaven This important question is related to a whole series of questions about Jesus his knowledge and self consciousness Did he know he was God s Son What did he know of his saving mission These issues are linked to a fundamental question Is the Saviour we need one who is altogether like us or one who is in some ways unlike us This book argues that God gave us a Saviour with beatific knowledge and who in this respect is very unlike us indeed The answer commonly given by Catholic theologians to this question underwent a dramatic shift in the middle of the 20th century Previously there had been a general unanimity based on the teaching of Thomas Aquinas that the answer was Yes the earthly Christ did indeed possess heavenly knowledge The theological situation was then radically altered to one where the answer No became predominant Theologians preferred to treat Christ s knowledge in terms of self consciousness ordinary human knowing faith prophecy and mysticism not the beatific vision This book addresses the reasons why theologians abandoned Aquinas s thesis arguing it has been too easily dismissed Considering the evidence of Scripture and Tradition and then moving from Christ s extraordinary knowledge through his ordinary knowledge to his will emotions and bodily life the book sketches an outline of the extraordinary Saviour God has in fact given us and who is indeed the Saviour humanity truly needs [Encyclopedia of Educational Theory and](#)

Jordan, 2016-12-01 In *Teaching Bodies* leading scholar of Christian thought Mark D Jordan offers an original reading of the *Summa* of Theology of Thomas Aquinas Reading backward Jordan interprets the main parts of the *Summa* starting from the conclusion to reveal how Thomas teaches morals by directing attention to the way God teaches morals namely through embodied scenes the incarnation the gospels and the sacraments It is Thomas s confidence in bodily scenes of instruction that explains the often overlooked structure of the middle part of the *Summa* which begins and ends with Christian revisions of classical exhortations of the human body as a pathway to the best human life Among other things Jordan argues this explains Thomas s interest in the stages of law and the limits of virtue as the engine of human life Rather than offer a synthesis of Thomistic ethics Jordan insists that we read Thomas as theology to discover the unification of

Christian wisdom in a pattern of ongoing moral formation Jordan supplements his close readings of the Summa with reflections on Thomas's place in the history of Christian moral teaching and thus his relevance for teaching and writing in the present What remains a puzzle is why Thomas chose to stage this incarnational moral teaching within the then new genres of university disputation the genres we think of as Scholastic Yet here again the structure of the Summa provides an answer In Jordan's deft analysis Thomas's minimalist refusal to tell a new story except by juxtaposing selections from inherited philosophical and theological traditions is his way of opening room for God's continuing narration in the development of the human soul The task of writing theology as Thomas understands it is to open a path through the inherited languages of classical thought so that divine pedagogy can have its effect on the reader As such the task of the Summa in Mark Jordan's hands is a crucial and powerful way to articulate Christian morals today **St Thomas Aquinas** Vivian Boland,2007 St Thomas Aquinas is indisputably a major thinker in education Vivian Boland's volume offers the most coherent account of Aquinas's educational thought **John Henry Newman** James Arthur,Guy Nicholls,2007-11-15 John Henry Newman's writings and his lifelong search for religious truth continue to influence thought within a range of disciplines most notably theology philosophy and education One of his most significant contributions was to the understanding of higher education contained within his nineteenth century writings in particular his volume of lectures entitled The Idea of a University which has helped shape religious and educational thought over two centuries Newman's claim that university education the pursuit of universal knowledge and truth is as much an education in pure and practical knowledge as in moral life provides a continuing source of challenge and inspiration to education leaders today much as it did in the nineteenth century James Arthur examines Newman's key strengths and weaknesses and locates these firmly within the intellectual context of his time providing an overview of his work that allows students to appreciate the importance of his thought both within and outside the Catholic tradition *Jean-Jacques Rousseau* Jurgen Oelkers,2014-10-23 Jean Jacques Rousseau enlightenment philosopher and founder of natural education is one of the most influential philosophers of education in the western world In order to fully understand Rousseau's impact as a true educational thinker Jurgen Oelkers argues that we must take into account his paradoxical style unique intellectual biography and his turbulent and unconventional way of life Combining historical analysis and contemporary ethical theory this text serves as both an introduction to Rousseau's theories of education and a critique of his views and shows how Rousseau was a pioneer in exploring educational issues within the context of his own philosophical problems in order to present innovative solutions **Leo Tolstoy** Daniel Moulin,2014-10-23 How do we know what we should teach And how should we go about teaching it These deceptively simple questions about education perplexed Tolstoy Before writing his famous novels War and Peace and Anna Karenina Tolstoy opened an experimental school on his estate to try and answer them His experiences there incited his life long inquiry into the meaning and purpose of religion literature art and life itself In this text Daniel Moulin tells the story of the course of Tolstoy's

educational thought and how it relates to Tolstoy's fiction and other writings. It begins with his experience of being a child and adolescent, incorporates his travels in Europe, the experimental school, his literature, and his views on art, philosophy, and spirituality. Throughout, the relevance and impact of Tolstoy's thinking on education are translated into applicable theory for today's education students.

John Locke Alexander Moseley, 2014-10-23 John Locke is one of the great minds in educational history. Drawing on his perceptive observations of families and children, he saw the importance of adapting learning to the child's dispositions. Critical of schools, he is the fountainhead of home tutoring, child-centred learning, and the importance of enjoyable learning. But for Locke, learning was not about facts; a good education produced gentlemen who could in turn adapt themselves to commerce and politics. Locke's philosophy helped provide rigour to the scientific revolution, the impetus for the expansion of schools for the poor, which should be profitable, and child psychology. Alexander Mosely sets Locke's educational writings in their context, with a sensitive reading of what Locke understood by education, and highlights the relevance of the study of Locke's work to our understanding of education today.

The Relational Power of God Eleanor O'Donnell, 2023-01-23 When we find the courage to allow our rebel voice to speak, many of us question traditional Christian beliefs about God's power and how it is exercised in the world and in the church. We ask: What if God is not in omnipotent control of everything? What if God's exercise of power is relational and noncoercive instead? What if it is the quality rather than the quantity of God's power that really matters? This book focuses on the theology of power that emerges when we ask such questions. It draws on the social Trinitarian theology of Jürgen Moltmann and the process thought of Charles Hartshorne to image God as a Social Trinity in process. This vision of God understands the Holy Trinity to be fully relational and thoroughly with us and all creation. To think of God and God's power this way ensures freedom for creature and creation and enables a viable response to the problem of evil and suffering. It also leads to the conclusion that human relationships in the world and in the church are best modeled on the power-sharing solidarity of the Triune God.
