actually give detailed tips and lessons on how to effectively set up and manage projects Most books on project management devote all their space to specific methods Breakthrough Technology Project Management Second Edition provides tangible guidelines through examples and suggestions to help people participate in and manage projects more effectively The authors techniques and guidelines have been proven over the past 15 years in courses and counseling This book is a valuable tool for those working in information systems engineering computer science operations and production and other environments involving project management It Can Be Done in Government Stanford E. Ford, Deborah A. Martel, Dianne A.

Wright, 2024-05-01 In this work titled It Can Be Done in Government An Approach for Improving Efficiency in the Public Sector 2nd Edition we attempt to provide a roadmap describing a simple approach for improving processes using teams This book is ideal for process improvement initiatives academic institutions organizational change practitioners public entities and administrators and leaders seeking a practical approach for the promotion and implementation of organizational effectiveness Throughout this handbook the term process refers to a series of steps that create a product or service Processes are different from projects Projects have a beginning and an end Processes are ongoing cyclical and rarely operate in isolation They connect to or impact many other processes An approach to improve these processes is the focus of this book As a public sector leader you are encouraged more often than not to have an external perspective looking outside looking long term You are told to keep your eyes on the horizon spend time figuring out what the public or the customer wants to pay attention to what other similar organizations are doing build external partnerships network and analyze both the external opportunities and threats The truth is however the leaders and organizations that stand out are those who contrary to this traditional approach aggressively look internally with a balance more likely of 80% internal and 20% external particularly within the public sector Report of the Launching workshop of the Climate Change Adaptation for Eastern Caribbean Fisheries Project "CC4FISH" Food and Agriculture Organization of the United Nations, 2018-11-12 The workshop presented the project s activities and objectives covering themes ranging from fishers insurance policies to fish waste management practices
