The Performative State Iza Yue Ding, 2022-09-15 What does the state do when public expectations exceed its governing capacity The Performative State shows how the state can shape public perceptions and defuse crises through the theatrical deployment of language symbols and gestures of good governance performative governance Iza Ding unpacks the black box of street level bureaucracy in China through ethnographic participation in depth interviews and public opinion surveys She demonstrates in vivid detail how China s environmental bureaucrats deal with intense public scrutiny over pollution when they lack the authority to actually improve the physical environment They assuage public outrage by appearing responsive benevolent and humble But performative governance is hard work Environmental bureaucrats paradoxically work themselves to exhaustion even when

they cannot effectively implement environmental policies Instead of achieving performance legitimacy by delivering material improvements the state can shape public opinion through the theatrical performance of goodwill and sincere effort The Performative State also explains when performative governance fails at impressing its audience and when governance becomes less performative and more substantive Ding focuses on Chinese evidence but her theory travels comparisons with Vietnam and the United States show that all states democratic and authoritarian alike engage in performative governance

Lasser, 2020-10-11 In 2009 and 2010 the European Court of Justice and the European Court of Human Rights underwent significant reforms to their respective judicial appointments processes Though very different judicial institutions they adopted very similar and rather remarkable reforms each would now make use of an expert panel of judicial notables to vet the candidates proposed to sit in Luxembourg or Strasbourg Once established these two vetting panels then followed with actions no less extraordinary they each immediately took to rejecting a sizable percentage of the judicial candidates proposed by the Member State governments What had happened Why would the Member States of the European Union and of the Council of Europe which had established judicial appointments processes that all but ensured themselves the unfettered power to designate their preferred judges to the European courts and who had zealously maintained and exercised that power over the course of some fifty years suddenly decide to undermine their own capacity to continue to do so This book sets out to solve this mystery Its point of departure is that it would be a mistake to view the 2009 2010 establishment of the

two vetting panels in isolation from other European judicial developments Though these acts of institutional creation are certainly the most notable recent developments they actually represent but the crowning achievement of a process of European judicial appointments reform that has been running unremittingly since the 1990 s This longstanding and tenacious movement has actually triggered a broad set of interrelated debates and reforms encompassing not only judicial appointments per se but also a much wider set of issues including judicial independence judicial quality judicial councils the separation of powers judicial gender equity and more
