Daughter of War Brad Taylor, 2019 A New York Times Bestseller Former Special Forces Officer and New York Times bestselling author Brad Taylor delivers a heart pounding thriller featuring Taskforce operators Pike Logan and Jennifer Cahill as they come face to face with a conspiracy where nothing is as it seems. Hot on the trail of a North Korean looking to sell sensitive US intelligence to the Syrian regime Pike Logan and the Taskforce stumble upon something much graver the sale of a lethal substance called Red Mercury. Unbeknownst to the Taskforce the Syrians plan to use the weapon of mass destruction against American and Kurdish forces and blame the attack on terrorists causing western nations to reassess their participation in the murky cauldron of the Syrian civil war. Meanwhile North Korea has its own devastating agenda a double cross that will dwarf the attack in Syria even as it lays the blame on the Syrian government. Leveraging Switzerland's fame for secrecy and its vast network of military bunkers now repurposed by private investors for the clandestine storage of wealth North Korea will use Red Mercury to devastate the West's ability to deliver further sanctions against the rogue regime. As the Taskforce begins to unravel the plot a young refugee unwittingly holds the key to the conspiracy. Hunted across Europe for reasons she cannot fathom she is the one person who can stop the attack if she can live long enough for Pike and Jennifer to find her.

It was to be a simple mission. Nothing more than assessing whether a merchant in the fabled Israeli Diamond Exchange was involved in a scheme that could potentially embarrass the state of Israel. But nothing is ever simple in the world of intelligence as Aaron Bergman a former leader of an elite direct action team under the Mossad should have known. Executing the operation as a contractor a cutout that gave the State of Israel plausible deniability he disappears without a trace. Pike Logan and his team know none of this but he's tracking an American arms dealer in Tel Aviv who may or may not be attempting to sell sensitive nuclear weapons components to the highest bidder. When Pike's team breaks up an attempt at killing Shoshana Aaron's partner they stumble upon much more than they expected a concerted conspiracy to topple a democratic African country. Beginning to untangle a web that extends through both the American and Israeli intelligence community Pike is forced to choose between his Israeli friends and his Taskforce mission even as the execution of the coup begins to form. At the heart of it is Aaron and his disappearance is the one mistake the plotters made. Because Shoshana is the greatest killing machine the Mossad has ever produced and she will stop at nothing to help Aaron even if it means killing
