Department of Agriculture,1961 *The Greater Plains* Brian Frehner,Kathleen A. Brosnan,2021-07 The Greater Plains tells a new story of a region stretching from the state of Texas to the province of Alberta where the environments are as varied as the myriad ways people have inhabited them These innovative essays document a complicated history of human interactions with a sometimes plentiful and sometimes foreboding landscape from the Native Americans who first shaped the prairies with fire to twentieth century oil regimes whose pipelines linked the region to the world The Greater Plains moves beyond the narrative of ecological desperation that too often defines the region in scholarly works and in popular imagination Using the lenses of grasses animals water and energy the contributors reveal tales of human adaptation through technologies ranging from the travois to bookkeeping systems and hybrid wheat Transnational in its focus and interdisciplinary in its scholarship The Greater Plains brings together leading historians geographers anthropologists and archaeologists to chronicle a past rich with paradoxical successes and failures conflicts and cooperation but also continual adaptation to the challenging and ever shifting environmental conditions of the North American heartland
