Introduction

Indira Gandhi was born on 19 November 1917. Her father was Jawaharlal Nehru, a nationalist leader and the first Prime Minister of independent India. The Nehru family was a prominent family politically, and her grandfather, Motilal Nehru, was a nationalist leader who led India's quest for independence from Britain. Indira Gandhi studied at various schools in India before acquiring higher education in Britain, specifically in the Somerville College in Oxford.

While in England, she met her future husband Feroze Gandhi, from whom she got the famous surname. However, Indira is not related to the famous Indian independence leader Mahatma Gandhi in any way. She returned to India in the year 1941 and married Feroze the following year. Indira Gandhi's political exposure began with her return to India, which coincided with her father's stint as the first Prime Minister of India (Steinberg 756). She subsequently served her father as his personal assistant.

Inevitably, as she rubbed shoulders with many politicians and leaders whom her father interacted with on a daily basis, her exposure to politics increased. When her father passed away in 1964, she secured a seat in India's parliament. Her status and influence further grew when she was appointed minister for Broadcasting.

Following the death of then Prime Minister Lal Bahadur Shastri, Indira Gandhi, and some of her political mentors, began a series of calculated maneuvers that would eventually see her assume the premiership seat in 1966. From her early days in politics, Indira Gandhi had shown a unique ability to win elections and outmaneuver opponents.

Therefore, with the help of the then president K. Kamaraj, she was eventually able to assume India's ultimate political seat as the country's Prime Minister. She served three consecutive terms from 1966 to 1977, winning three elections and after her party's defeat in 1977, she was able to rally her party members and followers, which saw her Congress Party win the following elections in 1980.
