

Showing Student Growth in Art

Model	Art Specific Example
General	Mr. Smith teaches 4 sections of 6th grade art and 2 sections of 7th grade art. He chooses to focus on his 6th grade students. He tracks 3 main concepts throughout the duration of his nine-week course. In this way, he assesses all of his students on the majority of the concepts he teaches.
General Tiered	Mr. Smith pre-tests all his students in 6th grade on 3 main concepts. Based on the results, he sorts the students into three, tiered groups. He sets a different goal for each group according to the baseline data. He tracks the students, assuming that they will achieve different results because they start at different levels of knowledge.
Specific - Student Group	Mr. Smith pre-tests his students and notices some of his special needs students are struggling with fine motor and cutting skills. He sets a student growth goal related to these skills for these students only. Throughout the nine-week course, he tracks only these students in this specific skill set.
Specific - Content/Skill	Mr. Smith pretests all his students in 6th grade on 3 main concepts. He notices that most students do not understand the concept of "value". He sets a student growth goal for all students that is focused on "value." Throughout the nine-week course, he tracks all students on this specific goal.
