## Online Practice Tests

The online practice tests are designed to familiarize students with the online testing environment, the available tools, and the various types of test questions. These tests provide students with an opportunity to interact with the test interface, respond to questions, and locate and use available tools.

The practice tests are released tests that have been previously administered and are available for STAAR and TELPAS. In addition, small sets of test questions (smaller than an actual test) are available as practice sets. These practice sets are used to introduce students to new types of test questions like the new STAAR item types.
