*Translation through grammar* P. J. E. Hyams, H. Chr. Wekker, 2013-11-11 All translation is a compromise the effort to be literal and the effort to be idiomatic Benjamin Jowett 1817-93 This book is designed to provide intermediate and advanced students of English with practice in the translation of Dutch texts into English It contains fifty prose passages most of them taken from recent Dutch novels or journals all of them tried out on several generations of our own students in the pre-kandidaatsfase of their studies at the English Department of the University of Nijmegen In these respects it is not spectacularly different from many other books of its kind We have however tried to offer the student rather more support in his translation work than is usually done each text is provided with a suggested translation of the first few lines and with notes containing information on grammar and idiom sometimes preceded by supplementary material from British or American sources The second part of the book comprises a short contrastive grammar specially written to meet the needs of the user In this way we hope to offer a self-contained translation course which reinforces the interdependence of grammar vocabulary textual interpretation and style Most of the texts in this book are reproduced in substantially the same form and wording as in the original sources In some cases editing was necessary in order for example to reduce long articles to more manageable proportions In no cases however were we moved to doctor the originals in order to disambiguate them or to make them easier to translate Bird Books and Bird Art J.
