Conversion After Socialism Mathijs Pelkmans, 2009-11-01 The large and sudden influx of missionaries into the former Soviet Union after seventy years of militant secularism has been controversial and the widespread occurrence of conversion has led to anxiety about social and national disintegration Although these concerns have been vigorously discussed in national arenas social scientists have remained remarkably silent about the subject This volume s focus on conversion offers a novel approach to the dislocations of the postsocialist experience In eight well researched ethnographic accounts the authors analyze a range of missionary encounters as well as aspects of conversion and anti conversion in different parts of the region thus challenging the problematic idea that religious life after socialism involved a simple revival of repressed religious traditions Instead they unravel the unexpected twists and turns of religious dynamics and the processes that have challenged popular ideas about religion and culture The contributions show how conversion is rooted in the disruptive qualities of the new capitalist experience and document its unsettling effects on the individual and social level

Conversion Linda van de Kamp, 2016 Examines Pentecostal conversion as a force of change revealing new insights into its dominant role in global Christianity today There has been an extraordinary growth in Pentecostalism in Africa with Brazilian Pentecostals establishing new transnational Christian connections initiating widespread changes not only in religious practice but in society This book describes its rise in Maputo capital of Mozambique and the sometimes dramatic impact of Pentecostalism on women Here large numbers of urban women are taking advantage of the opportunities Pentecostalism offers to overcome restrictions at home pioneer new life spaces and change their lives through the power of the Holy Spirit Yet conversion can also mean a violent rupturing with tradition with family and with social networks As the pastors encourage women to cut their ties with the past including ancestral spirits they come to see their kin and husbands as imbued with evil powers and many leave their families Conquering spheres that used to be forbidden to them they often live alone as unmarried women sometimes earning more than men of a similar age They are also expected to donate huge sums

to the churches often money that they can ill afford bringing new hardships Linda van de Kamp is Assistant Professor in the Department of Sociology University of Amsterdam The Netherlands Religious Conversions in the Mediterranean World N. Marzouki, O. Roy, 2013-08-22 While globalization undermines ideas of the nation state in the Mediterranean conversions reveal how religion can unsettle existing political and social relations Through studies of conversions across the region this book examines the challenges that conversions represent for national legal and policy ways of dealing with religious minorities *Aortic Aneurysm* Cornelia Amalinei, 2013-04-10 An increase in aortic aneurysm occurrence is registered despite considerable advances in surgical interventions Consequently numerous researchers have been trying to improve the understanding the aortic aneurysm pathogenesis in order to facilitate an early diagnosis to identify new therapeutic targets and to develop complex therapies Within this book the reader may find interesting data about etiology risk factors and pathogenesis of aortic aneurysm its characteristics in young age particularities of aneurysms affecting visceral arteries the preoperative evaluation of the patients different perspectives regarding the surgical therapy including the treatment of complications after prior surgery original proposals regarding new therapeutic modalities and advanced imaging strategies The multidisciplinary team of authors provides an interesting lecture and an update of the scientific literature **Religious Conversion** Sarah Claerhout, Jakob De Roover, 2022-05-06 This book re examines the issue of religious conversion which has been a site of conflict in India for several centuries It discusses wide ranging themes such as conversion education and reform in colonial India the process and practices of conversion in Christian Europe Gandhi conversion and the equality of religions perspectives from Hindu nationalism secularism and religious minorities religious freedom and the limits of propagating religion and conversion in constitutional law commissions and courts to chart new directions for research on religion tradition and conversion Tracing developments from the 19th century colonial era to contemporary times the book analyses cultural background frameworks and the origins of religious conversion and its conceptualisation in Western Christianity It further delves into how Indian culture and its traditions have shaped responses to conversion Part of the Critical Humanities Across Cultures series this book will be useful to scholars and researchers of critical humanities religion cultural studies sociology of religion comparative religion philosophy anthropology theology Indology history politics postcolonial studies critical theory and South Asian studies **Religious Conversion** Ira Katznelson, Miri Rubin, 2016-04-08 Religious conversion a shift in membership from one community of faith to another can take diverse forms in radically different circumstances As the essays in this volume demonstrate conversion can be protracted or sudden voluntary or coerced small scale or large It may be the result of active missionary efforts instrumental decisions or intellectual or spiritual attraction to a different doctrine and practices In order to investigate these multiple meanings and how they may differ across time and space this collection ranges far and wide across medieval and early modern Europe and beyond From early Christian pilgrims to fifteenth century Ethiopia from the Islamisation of the eastern Mediterranean to Reformation Germany

the volume highlights salient features and key concepts that define religious conversion particular the Jewish Muslim and Christian experiences By probing similarities and variations continuities and fissures the volume also extends the range of conversion to focus on matters less commonly examined such as competition for the meaning of sacred space changes to bodies patterns of gender and the ways conversion has been understood and narrated by actors and observers In so doing it promotes a layered approach that deepens inquiry by identifying and suggesting constellations of elements that both compose particular instances of conversion and help make systematic comparisons possible by indicating how to ask comparable questions of often vastly different situations

Sauma,2019-06-25 Ruptures brings together leading and emerging international anthropologists to explore the concept of rupture Understood as radical and often forceful forms of discontinuity rupture is the active ingredient of the current sense of a world in turmoil lying at the heart of some of the most defining experiences of our time the rise of populist politics the corollary impulse towards protest and even revolutionary change as well as moves towards violence and terror and the responses these moves elicit Rupture is addressed in selected ethnographic and historical contexts images of the guillotine in the French revolution reactions to Trump s election in the USA the motivations of young Danes who join ISIS in Syria butterfly effect activism among environmental anarchists in northern Europe the experiences of political trauma and its repair through privately sponsored museums of Mao s revolution in China people s experience of the devastating 2001 earthquake in Gujarat the inner rupture

of Protestant faith among Danish nationalist theologians and the attempt to invent ex nihilo an alphabet for use in Christian prophetic movements in Congo and Angola Ruptures takes in new directions broader intellectual debates about continuity and change In particular by thematising rupture as a radical sometimes violent and even brutal form of discontinuity it adds a sharper critical edge to contemporary discourses both in social theory and public debate and policy *The Guide to Clinical Preventive Services*, 2010 *The Guide to Clinical Preventive Services*, 2006 This compact portable quick reference handbook from the U S Preventive Services Task Force offers evidence based recommendations on the use of clinical preventive services in adult and pediatric patient care It provides specific guidelines for counseling testing and interventions based on age gender and risk factors for disease A letter grading system is used to indicate which preventive services are strongly recommended recommended not recommended or not supported by sufficient evidence Topics covered include cancer screening heart and vascular diseases infectious diseases injury and violence mental health and substance abuse metabolic nutritional and endocrine conditions musculoskeletal conditions and obstetric and gynecologic conditions

Mastering Endovascular Techniques George Geroulakos, Efthymios Avgerinos, Jean Pierre Becquemin, Gregory C. Makris, Alberto Froio, 2024-04-29 This book provides a detailed practically applicable guide to using the latest endovascular techniques Chapters feature detailed step by step instructions on how to perform procedures relevant for instances of disorders including cerebrovascular disease splachnic arteries and aortic aneurysms Multiple choice questions are provided throughout to enable the reader to identify the points covered Mastering Endovascular Techniques Tips and Tricks in Endovascular Surgery describes the latest endovascular methodologies and features detailed insight on how to apply these techniques into day to day clinical practice Remaking Indigeneity in the Amazon Esteban Rozo, 2023-09-28 Drawing on archival and ethnographic work this book analyzes how indigeneity Christianity and state making became intertwined in the Colombian Amazon throughout the 20th century At the end of the 19th century the state gave Catholic missionaries tutelage over Indigenous groups and their territories but in the case of the Colombian Amazon this tutelage was challenged by evangelical missionaries that arrived in the region in the 1940s with different ideas of civilization and social change Indigenous conversion to evangelical Christianity caused frictions with other actors while Indigenous groups perceived conversion as way of leverage with settlers This book shows how evangelical Christianity shaped new forms of indigeneity that did not coincide entirely with the ideas of civilization or development that Catholic missionaries and the state promoted in the region Since the 1960s the state adapted development policies and programs to Indigenous realities and practices while Indigenous societies appropriated evangelical Christianity in order to navigate the changes brought on by colonization modernity and state formation This study demonstrates that not all projects of civilization were the same in Amazonia nor was missionization of Indigenous groups always subordinate to the state or resource extraction Endovascular and Open Vascular Reconstruction Sachinder Singh Hans, 2017-11-22 In recent years the growth in endovascular procedures has meant

that vascular trainees may not gain sufficient experience to be competent in open vascular reconstructions following completion of their training At the same time many senior surgeons have somewhat limited experience of endovascular techniques This book will assist junior and senior surgeons and trainees in performing all types of vascular reconstructions A key feature of the book is its clear illustrations accompanied by pertinent case examples from vascular registries so that readers can perform these operations with clear understanding of anatomical exposure and dissection simplifying the conduct of the procedure
