**The Practice of British Geology, 1750-1850** Hugh Torrens, 2024-10-28 Geology is the most historical of all sciences Yet its own history remains neglected especially the many aspects of how geology was practised in the past This volume analyses the careers of some important practical figures in English Welsh Scottish and Irish geology between 1750 and 1850 These include people who would have regarded themselves more as mining engineers or coal viewers as they were then called in the vital coal industry or mineral surveyors as today s mineral prospectors were first called from 1808 or even inventors Their expertise in the land which led the industrial revolution took them all over the world Those included here went to Italy and South Peru and North America Virginia and Canada The practice of geology through the search for mines and minerals has been much less attended to by historians than the geology which was undertaken by leisured amateurs even though practical geology was as important in the past as the oil industry is today

This book relives the highlights of a 27-year career: The no-hitters, the landmark strikeouts, the records, and the man who was *The Ryan Express*. **Disability Representation in Film, TV, and Print Media** Michael S.

Jeffress, 2021-08-19. Using sources from a wide variety of print and digital media, this book discusses the need for ample and healthy portrayals of disability and neurodiversity in the media as the primary way that most people learn about conditions. It contains 13 newly written chapters drawing on representations of disability in popular culture from film, television, and print media in both the Global North and the Global South, including the United States, Canada, India, and Kenya. Although disability is often framed using a limited range of stereotypical tropes, such as victims, supercrips, or suffering patients, this book shows how disability and neurodiversity are making their way into more mainstream media productions and publications, with movies, television shows, and books featuring prominent and even lead characters with disabilities or neurodiversity. **Disability Representation in Film, TV, and Print Media** will be of interest to all scholars and students of disability studies, cultural studies, film studies, gender studies, and sociology, more broadly. **Ryan's Legacy** J. J. Southwell, 2013-05-17. After the loss of her son, J.J., followed her thirst for information on the afterlife: Heaven, reincarnation, and past lives. She received Reiki, hands-on energy healing treatments, and subsequently became a Reiki Master teacher so she could treat others. J.J. also practiced angel card therapy daily for herself and others if they were interested. While visiting four psychic mediums and a tarot card reader, J.J. spoke to her son, receiving amazingly accurate information from him and other spirits that helped her with her healing. She will share this inspiring information with you. J.J. details the first three years after Ryan's passing and hopes that relaying her trials and suggestions for dealing with them will assist YOU on your healing journey too.
