S M C snipers are the best in the world **Wanat** ,2010 On 13 July 2008 nine American soldiers perished while fighting a

pitched battle in the village of Wanat in Afghanistan's Waygal Valley. On that day the men of Company C 2d Battalion 503d Parachute Infantry Regiment endured four hours of intense close quarters combat and mounting casualties. The contingent of 49 United States and 24 Afghan National Army Soldiers valiantly defended their small outpost against a coordinated attack by a determined insurgent force armed with rocket propelled grenades and automatic weapons. Despite the initial advantage of tactical surprise and numerical superiority it was the insurgents who ultimately broke contact and withdrew from Combat Outpost Kahler. Army historians recognized the need to better understand the Battle of Wanat and ensure those who followed learned from the experiences of the courageous Soldiers who defended their outpost with such tenacity. As initial reports from the battle were received the Combat Studies Institute at Fort Leavenworth, Kansas began to prepare a historical analysis of the circumstances of the Battle of Wanat, launching an exhaustive research effort that produced a comprehensive and compelling example of contemporary history. This study offers an objective narrative of the events surrounding the Battle of Wanat. It does not seek to draw final conclusions or to second guess decisions made before or during the heat of battle. Rather it is an implement of learning allowing the reader to see the events of that day through the eyes of the leaders and Soldiers of Task Force Rock. It is meant to provide context to the chaos and complexity of modern conflict and to help the reader better understand and appreciate the nature of operations in an era of persistent conflict. Finally this study serves to honor and preserve the memories of the nine brave men who gave their lives at Combat Outpost Kahler.
