correspondence courses for Marines with all kinds of Military Occupational Specialties MOS on all manner of subjects This is
one of those courses The print is relatively small because that is the way it was in the original and this is an exact
reproduction Also as a tribute to the individual and a touch of reality you will notice that the editorial pencil marks and
underlined passages that were put there by the Marine that took this course They were intentionally left in the reproduction
This version of the course was authorized in September of 1984 With the exception the development of Infrared technology it
contains information and techniques that have changed very little since the Vietnam war These battle proven tactics are as
valid today as they were in Quang Nam province in 1968 They will maintain their validity during the upcoming inevitable
