Technologies of Counterfeit Drugs Ronny Priefer, 2023-08-10 Drugs are often counterfeited to reduce manufacture costs while still marketing it as an authentic product Increased incidence of drug counterfeiting is most noticeable in developing countries which may not have the resources to supply counterfeit detection devices on a large scale It is important to consider the problems caused and to propose options for controlling and reducing the prevalence of counterfeit medications Various technologies are needed to identify the chemical properties of a questioned medicinal product which can then be used to determine its authenticity This volume focuses on current technological approaches that are able to detect counterfeited pharmaceuticals Features Focuses on current technological approaches that are able to detect counterfeited pharmaceuticals Assesses the chemical methods of identifying counterfeit medicinal products and explains the theoretical underpinnings of the methods Provides case study type examples of the application for analysis of suspected counterfeit pharmaceuticals Discusses the detection and analysis of counterfeit drugs and appropriate tools for combating this issue The editor draws on his experience as a respected chemist and prolific author in the field to provide this unique text on drug counterfeiting detection The Great American Curse Mickey D Glover, 2013-12-07 The book of Revelation clearly tells us

that someday there would be an end to this world many have tried to determine this mystery date in our future to no avail But the mystery that the date seekers and many others failed to notice is this WHY Why is so much more important than when There is no question about it this world will definitely come to an end But why is it going to end In an ancient generation of mankind God gave man his law It is called the TEN COMMANDMENTS In today's society these laws are broken every day without much notice To our own ignorance there is always a price to pay when we disobey But life goes on These laws were put into place to protect us from ourselves But there is one sin that brought our world to an end that fell through the cracks virtually unnoticed This great sin has now spread throughout the entire earth Christians and unbelievers are all involved in this sin that has now grown so large that it is actually bringing in the curse of God for the judgment of this sin that will ultimately end our world as we know it Fulfilling the prophecies of the book of Revelation In this day and time knowledge has been much increased So the sin that caused our world to end would have to be put in place in such a way as to be greatly unnoticed Such as an illusionist or magician In this book that you are about to read you will learn the greatest deception ever pulled off in the world's history and at a cost so great that it will cause the end of our world as we know it The time for this judgment has already begun as early as 2007 the count down clock for the end of the world events began to tick off The Holy bible was given to mankind directly from God to tell us how life began and why our world ended
