Naturalizing Inequality Michela Marcatelli, 2021-10-05 More than twenty five years after the end of apartheid water access remains a striking reminder of racial inequality in South Africa This book compellingly argues that in the post apartheid period inequality has not only been continuously reproduced but also legitimized Michela Marcatelli unravels this inequality paradox through an ethnography of water in a rural region of the country The Waterberg Plateau is a space where agriculture conservation and extraction coexist and intersect Marcatelli examines the connections between neoliberalism race and the environment by showing that racialized property relations around water and land are still recognized and protected by the post apartheid state to sustain green growth She argues that the government depicts growth as the best if not only solution to inequality While white landowners maintain access to water however black ex farmworkers are dispossessed once again of this essential to life resource If the promise of growth serves to normalize inequality the call to save nature has the effect of naturalizing it even further Populism as Meta Ideology Kire Sharlamanov, 2022-05-06 This

Formlings are a painting category found across the southern African region including South Africa Namibia and Zimbabwe with its densest concentration in the Matopo Hills Zimbabwe Generations of archaeologists and anthropologists have wrestled with the meaning of this painting theme in San cosmology without reaching consensus or a plausible explanation Drawing on San ethnography published over the past 150 years Mguni argues that formlings are in fact representations of flying termites and their underground nests and are associated with botanical subjects and a range of larger animals considered by the San to have great power and spiritual significance This book fills a gap in rock art studies around the interpretation and meaning of formlings It offers an innovative methodological approach for understanding subject matter in San rock art that is not easily recognisable and will be an invaluable reference book to students and scholars in rock art studies and archaeology
