Vaal University 2015 Late Application:

Enhanced Chitosan Material for Water Treatment Ephraim Igberase, Peter Ogbemudia Osifo, Tumisang Seodigeng, Ikenna Emeji, 2021-04-29 This book reviews some of the latest developments in the field of water treatment using multi functional chitosan based materials. It covers the production of chitosan beads and membranes from chitosan powder as well as modification techniques for enhancing the material for commercial and industrial purposes. The book summarizes the results of experimental adsorption-desorption studies for elucidating the underlying reaction mechanism of heavy metal removal from wastewater, presenting an advanced overview of an array of characterization techniques such as Fourier transform infrared spectroscopy, thermogravimetric analysis, x-ray diffraction, and scanning electron microscopy. Additionally, it features a look at the development and application of specialized engineering software and image analysis for modelling the kinetics of adsorption. This book is ideal for scientists and engineers working in the broader field of environmental materials science. It is all well suited for chemists as well as industrial and civil engineers interested in wastewater treatment and mitigation of water pollution.

Predictive Intelligence Using Big Data and the Internet of Things Gupta, P.K., Ören, Tuncer, Singh, Mayank, 2018-12-28 With the recent growth of big data and the Internet of Things (IoT), individuals can now upload, retrieve, store, and collect massive amounts of information to help drive decisions and optimize processes. Due to this, a new age of predictive computing is taking place, and data can now be harnessed to predict unknown occurrences or probabilities based on data collected in real time. Predictive Intelligence Using Big Data and the Internet of Things highlights state-of-the-art research on predictive intelligence using big data, the IoT, and related areas to ensure quality assurance and compatible IoT systems. Featuring coverage on predictive application scenarios to discuss these breakthroughs in real-world settings and various methods, frameworks, algorithms, and security concerns for predictive intelligence, this book is ideally designed for academicians, researchers, advanced level students, and technology developers.

Evolution and Fossil Record of African Proboscidea William J. Sanders, 2023-08-25 This book details the long, diverse, and complex phylogenetic history of elephants and their fossil relatives, the Proboscidea, whose origin is deeply embedded some 60 million years ago in Africa. Most of the major evolutionary events of proboscideans occurred in Africa, and these are examined in their geological, paleoecological, geographic, and faunal contexts. Updated information about feeding adaptations, taxonomy, and systematics, genetics, and site occurrences is included and summarized in tables, figures, and charts. This is the first comprehensive review of African proboscideans and illustrates the need to more actively protect elephants and ensure their survival in modern ecosystems.

Key Features: Provides a comprehensive systematic review of the African proboscidean fossil record. Includes a summary of taxonomy, geochronology, biogeography, and morphology. Documents major faunal events, including those associated with hominin origins. Synthesizes new data from genomic, isotopic, and microware analyses. Emphasizes the role of elephants in ecosystems and the importance of conservation.

Moorman, 2019-08-20 *Powerful Frequencies* details the central role that radio technology and broadcasting played in the formation of colonial Portuguese Southern Africa and the postcolonial nation state Angola In *Intonations* Marissa J Moorman examined the crucial relationship between music and Angolan independence during the 1960s and 70s Now Moorman turns to the history of Angolan radio as an instrument for Portuguese settlers the colonial state African nationalists and the postcolonial state They all used radio to project power while the latter employed it to challenge empire From the 1930s introduction of radio by settlers to the clandestine broadcasts of guerrilla groups to radio s use in the Portuguese

counterinsurgency strategy during the Cold War era and in developing the independent state's national and regional voice. *Powerful Frequencies* narrates a history of canny listeners, committed professionals and dissenting political movements. All of these employed radio's peculiarities: invisibility, ephemerality and its material effects to transgress social, political, physical and intellectual borders. *Powerful Frequencies* follows radio's traces in film, literature and music to illustrate how the technology's sonic power, even when it made some listeners anxious and frightened, created and transformed the late colonial and independent Angolan soundscape.

The Origin and Growth of Geography as a discipline at South African Universities Gustav Visser, Ronnie Donaldson, Cecil Seethal, 2016-09-20

Chemostratigraphy Mu Ramkumar, 2015-02-17

Chemostratigraphy: Concepts, Techniques and Applications is the first collection of contributed articles that introduces young geoscientists to the discipline while providing seasoned practitioners with a standard reference that showcases the topic's most recent research and application developments. This multi-contributed reference on one of the youngest and most dynamic branches of the geosciences includes articles from some of the world's leading researchers. This book is a one-stop source of chemostratigraphy theory and application, helping geoscientists navigate through the wealth of new research that has emerged in recent years. Edited by one of the world's foremost chemostratigraphy experts, it features contributed articles from a broad base of topics including stratigraphic correlation, hydrocarbon exploration, reservoir characterization and paleoclimatic interpretation. Includes a range of application-based case studies addressing spatio-temporal scales for practical field-specific concepts.

To Democratize or Not? Trials and Tribulations in the Postcolonial World Volkan Ipek, Ebru Ilter-Akarcay, 2020-07-06

This volume, a product of the first Tricontinental Conference organized by Yeditepe University, Istanbul, brings together perspectives on democracy and development in Africa, the Middle East and Latin America. Representing local voices and insight, the contributors here respond to the dearth of comparative analysis on these three regions. In spite of the differences observed in colonial practices and postcolonial transitions, a shared disenchantment with the performance of competitive politics comes to the forefront in these geographical areas. Decades after decolonization, low-intensity democracy and the continuing potential for democratic reversals and backsliding make the study of these three regions relevant. Considering the debates on protests, social upheavals, activism, change and continuity, this book encourages the reader to survey the various trials and tribulations of the postcolonial era.

Colonial Survey and Native Landscapes in Rural South Africa, 1850 - 1913 Lindsay F. Braun, 2014-10-16

In *Colonial Survey and Native Landscapes in Rural South Africa, 1850-1913*, Lindsay Frederick Braun explores the technical processes and struggles surrounding the creation and maintenance of boundaries and spaces in South Africa in the nineteenth and early twentieth centuries. The precision of surveyors and other colonial technicians lent these enterprises an illusion of irreproachable objectivity and authority, even though the reality was far messier. Using a wide range of archival and printed materials from survey departments, repositories and libraries, the author presents two distinct episodes of struggle over lands and livelihoods: one from the Eastern Cape and

one from the former northern Transvaal These cases expose the contingencies contests and negotiations that fundamentally shaped these changing South African landscapes Changing Climates, Ecosystems and Environments within Arid Southern Africa and Adjoining Regions Jörgen Runge, 2015-10-30 This book is volume 33 of the yearbook series Palaeoecology of Africa presenting the outcome of a tribute conference to the internationally recognized South African researcher and palynologist Professor Louis Scott He has recently retired but is continuing his active research career The conference proceedings and articles published here Pretoria Student Law Review 2021-15 Phenyio Nomasonto Morweši Sekati, 2022-01-01 About the publication I am delighted to present to you the reader the fifteenth edition of the Pretoria Student Law Review PSLR with its Special Section on Social Justice and COVID 19 This year's Annual Edition together with the developments made during the year is a testament to the growth resilience and adaptability of this student driven initiative especially during these turbulent times This year has also been one of reflection and remembrance as we publish this edition in tribute to the late Professor Christof Heyns whose instrumentality in the establishment of the Pretoria University Law Press PULP has brought us to where we are today Fourteen years since its inception and the PSLR still continues to grow and evolve whilst remaining true to its thriving legacy in fostering excellence and innovation through legal writing This publication's uniqueness is also presented through its diverse contributions all addressing contemporary societal and legal issues under a broad range of legal disciplines In an era of many continued firsts the PSLR has strived to build on the legacy of its predecessors by expanding on the Journal's visibility and accessibility The PSLR's digital presence has now grown substantially leading to an increase in quality submissions from institutions across the country This year the PSLR launched its first independent website and developed an official logo for the Journal and its online platforms Authors are now able to submit their papers through the Open Journals System platform track their workflow manage their submissions and submit at any time outside of the PSLR's official call for submissions We can firmly submit that we have in pursuance of being a DHET accredited journal fulfilled the standards set out by the Department of Higher Education and Training Many thanks are extended to Makone Maja for developing the website Your patience guidance and geniality are truly appreciated Thank you also to Jakolien Strydom and ClickCreate for your charitable assistance in developing and designing the logo To the authors this year has in many respects been challenging with many of those challenges affecting students directly We appreciate the dedicated efforts put into your submissions and your wholehearted cooperation throughout the entire process Much appreciation is also extended to the reviewers who have selflessly committed to assisting the PSLR during the peer review process To all of the reviewers your input guidance and recommendations are greatly appreciated Phenyio Nomasonto Morwesi Sekati Editor in Chief 2020 Advanced Wind Turbines Teik-cheng Lim, Palanisamy Mohan Kumar, Sivalingam Krishnamoorthi, 2023-09-13 How can non windy places make use of wind power for electricity generation Advanced Wind Turbines provides detailed information that is of great practical importance to wind turbine practitioners from small and congested city states where the

lack of vast land and high wind speed render the conventional wind turbine less effective. It introduces the non conventional Darrieus and Savonius wind turbines as well as their hybrid version covering basic concepts computational modelling and recent advances in experimental optimization. What about those who prefer wind turbines in faraway oceans to take advantage of high wind speed or who come from countries with a lack of shallow seabed? Floating offshore wind turbines are also discussed and the dynamics of floating vis vis grounded wind turbines are thoroughly expounded upon to aid practitioners in achieving more accurate performance modelling. This is a work of paramount usefulness for areas which have long wanted to jump on the renewable energy bandwagon but have thus far been hampered by their natural geographical limitations.

Social Movements and the Indian Diaspora Movindri Reddy, 2015-11-19

With the elevation of Islam and Muslim transnational networks in international affairs from the rise of Al Qaeda to the revolutions in North Africa and the Middle East the study of Diasporas and transnational identities has become more relevant. Using case studies from Fiji Mauritius Trinidad and South Africa this book explores the diaspora identities and impact of social movements on politics and nationalism among indentured Indian diaspora. It analyses the way in which diasporas are defined by themselves and others and the types of social movements they participate in showing how these are critical indicators of the threat they are perceived to pose. The book examines the notions of national and transnational identity and how they are determined by the placement of Diasporas in the transnational locality. It argues that the transnationality intrinsic to diaspora identities mark them as others in the nation state and simultaneously separates them from the perceived motherland thus displacing them from both states and situating them in a transnational locality. It is from this placement that social movements among Diasporas gain salience. As outsiders and insiders they are well placed to offer a formidable challenge to the host state but these challenges are limited by their hybrid identities and perceived divided loyalties. Providing an in depth analysis of Indian Diasporas the book will be of interest to those studying South Asian Studies Migration and Diaspora Studies.
