South African Who's who, 1911 **Predictive Intelligence Using Big Data and the Internet of Things** Gupta, P.K., Ören, Tuncer, Singh, Mayank, 2018-12-28 With the recent growth of big data and the internet of things IoT individuals can now upload retrieve store and collect massive amounts of information to help drive decisions and optimize processes Due to this a new age of predictive computing is taking place and data can now be harnessed to predict unknown occurrences or probabilities based on data collected in real time Predictive Intelligence Using Big Data and the Internet of Things highlights state of the art research on predictive intelligence using big data the IoT and related areas to ensure quality assurance and compatible IoT systems Featuring coverage on predictive application scenarios to discuss these breakthroughs in real world settings and various methods frameworks algorithms and security concerns for predictive intelligence this book is ideally designed for academicians researchers advanced level students and technology developers **Who's who of Southern Africa**, 1935 Vols for 1967 70 include as a section Who's who of Rhodesia Mauritius Central and East Africa *Innovative Developments in Virtual and Physical Prototyping* Paulo Jorge da Silva Bartolo, 2011-09-16 *Innovative Developments in Virtual and Physical Prototyping* presents essential research in the area of Virtual and Rapid Prototyping The volume contains reviewed papers presented at the 5th International Conference on Advanced Research in Virtual and Rapid Prototyping hosted by the Centre for Rapid and Sustainable Product Development of the Polytechnic Institute of Leiria Portugal from September 28 to October 1 2011 A wide range of topics is covered such as CAD and 3D Data Acquisition Technologies Additive and Nano Manufacturing Technologies Rapid Tooling Manufacturing Biomanufacturing Materials for Advanced Manufacturing Processes Virtual Environments and Simulation Applications of Virtual and Physical Prototyping Technologies *Innovative Developments in Virtual and Physical Prototyping* is intended for engineers designers and manufacturers who are active in the areas of mechanical industrial and biomedical engineering **Corrupted** Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions Why do some universities seem to be in a constant state of turmoil and dysfunction Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources especially on campuses located in impoverished communities It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never ending run on the material such as money for infrastructure and symbolic namely graduation certificates for sale assets of these institutions Jansen argues that the problem won't be solved

through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly
