Onoyivwe Monday Ama, Suprakas Sinha Ray, 2020-04-07 This book reports on the development of nanostructured metal oxide based electrode materials for use in water purification The removal of organic pollutants and heavy metals from wastewater is a growing environmental and societal priority This book thus focuses primarily on new techniques to modify the nanostructural properties of various solvent electrolyte combinations to address these issues Water treatment is becoming more and more challenging due to the ever increasing complexity of the pollutants present requiring alternative and complementary approaches toward the removal of toxic chemicals heavy metals and micro organisms to name a few This contributed volume cuts across the fields of electrochemistry water science materials science and nanotechnology while presenting up to date experimental results on the properties and synthesis of metal oxide electrode materials as well as their application to areas such as biosensing and photochemical removal of organic wastewater pollutants Featuring an introductory chapter on electrochemical cells this book is well positioned to acquaint interdisciplinary researchers to the field while providing topical coverage of the latest techniques and methodology It is ideal for students and research professionals in water science materials science and chemical and civil engineering **Student Movements in Late**

Neoliberalism Lorenzo Cini, Donatella della Porta, César Guzmán-Concha, 2021-08-22 This book inquires into the global wave of student mobilizations that have arisen in the aftermath of the economic crisis of 2008 accounting for their historical and sociological significance More specifically its eleven chapters explore the role of students as political actors their ability to build effective organizations to make political alliances with other actors and to win public consensus as well as their impact on cultural political and policy outcomes To do so the volume examines case studies in England Chile South Africa Quebec and Hong Kong covering Europe Africa Asia and North and Latin America Grouped into two major sections the collection covers the organizational structures of student movements and their alliances and outcomes Ultimately this volume examines the understudied political aspects of student unrest exploring how student mobilizations driven by indebtedness precariousness the corporatization of the university and other issues correspond to larger processes of change with wider implications in society

The Language Issue in the Teaching of Mathematics in South Africa Lindiwe Tshuma, 2021-01-26 The book is the result of a five year project that culminated within the first three years in doctoral research interrogating language competency for meaningful mathematics instruction at upper primary level conducted at University of Stellenbosch in 2017 and this book in the succeeding two years The initial research project received countrywide coverage in several South African media outlets including Times Live and Radio 2000

ICEL2013-Proceedings of the 8th International Conference on e-Learning Eunice Ivala, 2013-06-27

Utilisation of South African Research on Higher Education Jan Botha, Gabriele Vilyte, 2021-10-26 The relationship between research on the one hand and policy practice on the other hand is complicated and collaboration between scholars in research on higher education RHE and institutional research IR practitioners is often lacking This book marks a collaborative effort of a diverse range of South African RHE and IR scholars and asks the overarching questions What do we know about the utilisation of South African research on higher education SARHE and its subset of research known as Institutional Research How and by whom is this research used The book begins by looking at the historical underpinnings of SARHE and delineating the shape and size of this body of research This is followed by a series of case studies on South African Higher Education institutions and governmental bodies investigating how when and by whom are research on higher education and institutional research used in the decision making of these organisations This book is the first of its kind in South Africa and sets out to lay the groundwork for further research into the use uptake and utilisation of RHE and IR in this country

Research Universities in Africa Cloete, Nico, Bunting, Ian, 2018-11-09 From the early 2000s a new discourse emerged in Africa and the international donor community that higher education was important for development in Africa Within this zeitgeist of converging interests a range of agencies agreed that a different collaborative approach to linking higher education to development was necessary This led to the establishment of the Higher Education Research and Advocacy Network in Africa Herana to concentrate on research and advocacy about the possible role and contribution of universities to development in Africa This book is the final publication to

emerge from the Herana project The project has also published more than 100 articles chapters reports manuals and datasets and many presentations have been delivered to share insights gained from the work done by Herana Given its prolific dissemination it seems reasonable to ask whether this fourth and final publication will offer the reader anything new This book is certainly different from previous publications in several respects First it is the only book to include an analysis of eight African universities based on the full 15 years of empirical data collected by the project Second previous books and reports were published mid project This book has benefited from an extended gestation period allowing the authors and contributors to reflect on the project without the distractions associated with managing and participating in a large scale project For the first time some of those who have been involved in Herana since its inception have had the opportunity to at least make an attempt to see part of the wood for the trees Different does not necessarily mean new An emphasis on the newness of the data and perspectives presented in this book is important because it shows that it is more than a historical record of a donor funded project Rather each chapter in this book brings to a lesser or greater extent something new to our understanding of universities research and development in Africa

Locating Social Justice in Higher Education Research Jan McArthur,Paul Ashwin,2020-03-19 This book focuses on the relations between social justice and higher education research Jan McArthur and Paul Ashwin bring together chapters from international researchers that explore these relations in a range of national contexts and consider their implications for policies pedagogy and our understanding of the roles of graduates in societies As a whole the book argues that social justice needs to be more than a topic of higher education research and must also be part of the way that research is undertaken Social justice must be located in research practices as well as in the issues that are researched

Sustainable Development Goals for Society Vol. 1 Godwell Nhamo,Muchaiteyi Togo,Kaitano Dube,2021-06-16 Written by 43 authors from Africa Europe and Latin America this book presents 19 topics addressing poverty in the context of Sustainable Development Goals SDGs leadership in implementing SDGs and SDGs in service delivery and local government As the world has gone past five years of implementing the 2030 Agenda for Sustainable Development and the intertwined 17 SDGs new opportunities in research continue to open up Hence documenting some of the initiatives put in place around the world regarding the implementation of the SDGs is one of the aims of this publication With 10 years remaining the book further enhances the desire to scale up SDGs implementation The selection of case studies from the selected regions also provides a balance in terms of how the SDGs are being rolled out for economic growth environmental stewardship and social protection The ambition remains even with the challenge brought by the COVID 19 pandemic that preoccupied the whole of 2020 spilling over to 2021 There is no doubt that resources have been diverted but the world must stay on the course to 2030 and beyond Therefore the book is relevant for several stakeholders including the academics development partners government officials and other individuals that are involved in making sure no one is left behind in the lead to 2030

Universities in Transition Bo Göransson,Claes Brundenius,2010-12-16

Globalization the information age and the rise of the knowledge based economy are significantly transforming the way we acquire disseminate and transform knowledge And as a result knowledge production is becoming closer and more directly linked to economic competitiveness This evolution is also putting new and urgent demands on academic institutions to adjust to the changing needs of society and economy In particular there is growing pressure on the institutions of higher education and research in developed economies to find and affirm their new role in the national innovation system Their counterparts in developing economies need to define their role in supporting emerging structures of the innovation system This book examines the role of universities and national research institutes in social and economic development processes Featuring contributions that showcase initiatives and innovations from around the world including China Eastern Europe Latin America Scandinavia Southeast Asia sub Saharan Africa and Western Europe it offers timely insight that will be of interest to policymakers university administrators economic and social leaders and researchers alike
