Vall University Study Environment Management:

The Increasing Risk of Floods and Tornadoes in Southern Africa Godwell Nhamo, Lazarus Chapungu, 2021-08-03

This volume discusses the increasing occurrence of floods and tornadoes in Southern Africa over the last few years. The book discusses existing flood and tornado management protocols, indigenous approaches to mitigate disaster risk, urban and peri-urban flooding, tornado-induced flooding and windstorms, and the challenges and vulnerabilities associated with rural and transboundary floods. The book offers planning and recovery strategies to minimise impacts from these events through sustainable means. Such means include sustainable drainage systems, waste management in harbors and beaches, community engagement in flood-prone areas, and improved food security measures in urban poor households. **COVID-19, Tourist**

Destinations and Prospects for Recovery Kaitano Dube, Ishmael Mensah, Lazarus Chapungu, 2023-03-16. Despite the fact that the African tourism industry is prone to disturbances such as diseases, extreme weather events, civil unrest, wars, and other shocks, nothing could have prepared this destination for the devastating effect of the COVID-19 pandemic. In the absence of government or international agency budget support, the pandemic challenged the African tourism market to its core. The focus of this book is to assess the impact of the COVID-19 pandemic on the African tourism destination market, as well as its prospects for recovery. A chapter written by the editorial team introduces the book. Following the introduction, the book offers chapters evaluating the pandemic's impact on African tourism. Chapters in the second part of the book discuss tourism recovery and how some destinations have survived the pandemic. The book concludes with a chapter providing policy recommendations and practical implementation advice. The book is part of a 3-volume series: Protected Areas and Tourism in Southern Africa. Lesego Senyana Stone, Moren Tibabo Stone, Patricia Kefilwe Mogomotsi, Goemeone E.J.

Mogomotsi, 2022-03-23. This volume discusses the complex relationship between Protected Areas and tourism and their impact on community livelihoods in a range of countries in Southern Africa. Protected areas and tourism have an enduring and symbiotic relationship. While protected areas offer a desirable setting for tourism products, tourism provides revenue that can contribute to conservation efforts. This can bring benefits to local communities, but it can also have a negative impact with the establishment of protected areas, leading to the eviction of local communities from their original places of residence, while also preventing them from accessing the natural resources they once enjoyed. Taking a multi-disciplinary approach, this book addresses the opportunities and challenges faced by communities and other stakeholders as they endeavour to achieve their conservation goals and work towards improving community livelihoods. Case studies from Botswana, Malawi, Namibia, South Africa, Tanzania, Zambia, and Zimbabwe address key issues such as human-wildlife conflicts, ecotourism, wildlife-based tourism, landscape governance, wildlife crop raiding, and trophy hunting, including the high-profile case of Cecil the lion. Chapters highlight both the achievements and positive outcomes of protected areas, but also the challenges faced and their impact on how protected areas are viewed, and also conservation priorities more generally. The volume gives these issues

affecting protected areas local communities managers and international conservation efforts centre stage in order inform policy and improve practice going forward This book will be of great interest to students and scholars of conservation natural resource management tourism sustainable development and African studies as well as professionals and policymakers involved in conservation policy *Computational, Education, and Materials Science Aspects* Ponnadurai Ramasami,2022-10-03 Chapters collected from The Virtual Conference on Chemistry and its Applications VCCA 2021 Research and Innovations in Chemical Sciences Paving the Way Forward This conference was held in August 2021 and organized by the Computational Chemistry Group of the University of Mauritius These peer reviewed chapters offer insights into research on fundamental and applied chemistry with interdisciplinary subject matter *Alkalies: Advances in Research and Application: 2011 Edition* ,2012-01-09 Alkalies Advances in Research and Application 2011 Edition is a ScholarlyEditions eBook that delivers timely authoritative and comprehensive information about Alkalies The editors have built Alkalies Advances in Research and Application 2011 Edition on the vast information databases of ScholarlyNews You can expect the information about Alkalies in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Alkalies Advances in Research and Application 2011 Edition has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com> **Tourism and Hospitality for Sustainable Development** Emmanuel Ndhlovu,Kaitano Dube,Tawanda Makuyana,2024-09-12 The travel and hospitality industry in the 21st century cannot be conceived planned advertised run or researched without the use of digital technology and innovation Sustainable development in this sector cannot be achieved without considering the Fourth Industrial Revolution The use of technology not only enhances the industry s profitability but also helps it to respond effectively to pressing global sustainability issues such as pandemics climate change energy crises workforce shortages and hyperinflation Furthermore technology allows the sector to fully evaluate its current and future economic social and environmental impacts addressing the needs of tourists businesses the environment and destinations However implementing technology is not a simple process and involves various opportunities costs and challenges that differ depending on the geopolitical and socio economic context With the drive towards disability inclusion digitalisation technological innovations and inventions can play a significant role in universal design and reasonable accommodation for older people and populations with disabilities in the Global North and South such forms one of the key pillars of accessible tourism and hospitality In the context of the above and in response to the thoughtful need for new and sustained study of the developments interrelationships potentialities of the topic and synergies this edited book explores the trends opportunities challenges and complexities of digitalisation and technology integration in the tourism

and hospitality industry as well as strategic shifts that will contribute to emerging research streams The book comprises contributions that generate theoretical insights empirical findings and evidence based recommendations by focusing on emerging and forecasted technologies used in the tourism and hospitality industry such as blockchains robots Artificial Intelligence Virtual Reality big data and analytics The aim is to provide a better understanding of how disruptive technologies and digitalisation are currently being utilised and how they currently and potentially influence various stakeholder groups as well as their future possibilities and impossibilities The third volume in a three volume set primarily covers how these new technologies impact consumers and employees of tourism related services Handbook on Tourism and Conservation

Goldman, C.W. Callaghan, Gregory John Lee, Nthabiseng V. Moraka, Hester Nienaber, Shaun Ruggunan, Whitey (Tjaart Nicholaas) van der Linde, 2016-12-31 The purpose of this book is to establish the first formalised scholarly work on critical management studies CMS in the South African context The book is a collection of seven chapters six of which employ a

conceptual methodology and one of which follows an interpretive paradigm employing qualitative methods of inquiry CMS is a relatively young school of thought arising in the early 1990s and still very much a peripheral movement within the academic discipline of management South Africa has very little scholarship on CMS as precious few scholars work in this space Furthermore publication opportunities are virtually non-existent as CMS is virtually unknown in the South African community of management scholars Thus this book represents the first academic work on CMS published in South Africa written and reviewed by scholars who are familiar with the field The primary target readership would be management academics but it could also be a useful reference for postgraduate students in management

The Green Building

Evolution Godwell Nhamo, Vuyo Mjimba, 2019-12-19 The Green Building Evolution illuminates global examples and makes use of case studies mainly from South Africa This book is in five parts Part I is a single introductory chapter centred on the evolution of the green building movement Part II addresses the green building terrain Part III presents selected case studies Part IV focuses on chapters that address pushing the boundaries in the green building space while Part V presents emerging trends and policy perspectives Further details are contained in the main body of the book It is our sincere hope that readers will experience the book as an informative and ground-breaking adventure Written by 14 authors from different academic disciplines and areas of specialisation the book comes as the sixth in a series that addresses global and national concerns on climate change sustainable development and the green economy transition agenda The book series is conceptualised and coordinated by the Exxaro Chair in Business and Climate Change led by Prof Godwell Nhamo and hosted by the Institute for Corporate Citizenship ICC at the University of South Africa UNISA The books are published by the Human Sciences Research Council HSRC through the Africa Institute of South Africa

Critical management studies in South Africa, 2021-11-30 This book shows how Critical Management Studies CMS scholarship is starting to develop a character of its own in South Africa It attests to CMS slowly gaining momentum and acquiring an identity of its own amongst South African scholars However management studies in South Africa is dominated by capitalist ideology and positivist methodology Although Interpretive scholarship has gained some momentum it still falls within the parameters of mainstream capitalist thinking Scholarship outside the domain of capitalist thinking such as critical scholarship remains sorely underexplored Being entrenched in the positivist tradition is arguably a major Achilles Heel for the progression of management as a field of inquiry CMS presents a vehicle for alternative epistemologies to be heard in the management discourse With its focus on power imbalances struggles for emancipation from oppression and distrust of capitalism CMS provides the peripheral point of view with a voice CMS presents a space where scholars can engage with South African realities surrounding political cultural social and historical contexts and issues in management This book is promoting CMS to the scholarly community to show that there are exciting possibilities being offered by a different approach to management scholarship This book also forms part of a larger project of growing CMS in South Africa and is a collection of original works by academics actively working in CMS following various

methodological approaches which can be categorised into two broad methodological categories namely conceptual work and empirical work following an Interpretive approach
