**The Russian Revolution and Civil War 1917-1921** Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of

March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state      Readers' Guide to Periodical Literature Anna Lorraine Guthrie,Bertha Tannehill,Neltje Marie Tannehill Shimer,1919      **A Guide to Scholarly Resources on the Russian Empire and the Soviet Union in the New York Metropolitan Area** Robert A. Papazian,1958      State and Revolution V. I. Lenin,Todd Chretien,2015-01-19 State and Revolution is an indispensable guide to confronting the political and bureaucratic structures that protect the power and position of the world s elites and suffocate the lives of the vast majority of humanity It has been considered essential reading for generation after generation of revolutionaries and

this fully annotated edition offers an essential guide to contemporary activists trying to work through and adapt its conclusions to our present conditions Much of Valdimir Ilyich Lenin s most famous and most misunderstood book was written in July of 1917 while its author was on the run and plagued by fears that the revolution would be swallowed by the forces of reaction waging a war to restore Russia s Tsar By 1918 when this small notebook on Marxism and the State was first published the autocracy was no more and the centuries old apparatus of repression it had used to sustain its rule had been smashed to bits by the collective power of Russia s working class and peasantry In part because it was forged in the crucible of revolutionary foment and in part because the state continues to be the guardian of the same inhumane systems of exploitation and oppression that Lenin thundered against State and Revolution has offered inspiration and invaluable lessons to anti capitalists the world over But this small book was very much a product of its time written for a specific context with a focus on certain questions over others Because of this any contemporary reader attempting to absorb State and Revolution s numerous lessons without a guide travels a perilous road This new edition from Haymarket Books features an extensive introduction hundreds of explanatory annotations and an invaluable glossary of key figures and terms by Todd Chretien all of which help place Lenin s work in its historical context Chretien deftly offers an accessible account of the most important people parties and debates within the socialist movement of Lenin s time and provides a map to navigating the book s most controversial points
