Nitrogen Use Efficiency in Plants Vanitha Jain, 2011-01-01 Nitrogen fertilizers are necessary to enhance agricultural production and to sustain food security. However, their inefficient use accrues from inherent limitations of the crop plants as well as the manner in which N fertilizers are formulated, applied and managed. The main aim of the book is to assess the various aspects of the fate of fertilizer N in context of the overall N inputs to agricultural systems with a view to enhance the efficiency of nitrogen use and reduce the negative impacts on environment. The cross-cutting issues relate to improvement in nitrogen use by emerging technologies, genetic enhancement, QTL mapping, meeting N needs by understanding its interactions with other nutrients and mitigation of nitrogen losses caused by environmental factors and management practices. *Nitrogen Use Efficiency in Plants* develops links between basic and applied research and practical crop production by addressing a wide range of topics relating to nitrogen use efficiency and to plant and crop responses to applications of nitrogen via fertilizers including nitrogen acquisition and reduction, molecular approaches, nitrate induction and signaling and nitrogen use under abiotic stresses. *Nitrogen Use Efficiency in Plants* is an invaluable classroom aid for academics working in plant physiology, biochemistry, biotechnology, molecular breeding and agronomy and an essential professional resource for researchers working in plant and crop systems as it provides a comprehensive interdisciplinary description of problems related to the efficient use of nitrogen in agriculture.

Handbook of Ayurvedic Medicinal Plants L.D. Kapoor, 2017-11-13 This handbook is filled with over 50 illustrations and descriptions of approximately 250 plants which are used for herbal medicine. It includes information on medicinal plants ranging from *Abies spectabilis* to *Zizyphus vulgaris*. The purpose of this handbook is to make available a reference for easy, accurate identification of these herbs. Derived from India, Ayurveda is the foundation stone of their ancient medical science. Approximately 80 percent of the population of India and other countries in the East continue to utilize this system of medicinal treatment. It is believed that the key to successful medication is the use of the correct herb. This is an indispensable resource for all physicians, pharmacists, drug collectors and those interested in the healing arts.

Handbook of Spices in India: 75 Years of Research and Development P N Ravindran, K Sivaraman, S Devasahayam, K Nirmal Babu, 2024-06-24 This compendium presents comprehensive information on more than 25 important spice crops commercially grown in India and traded globally, apart from over 40 spices that have the potential to be popularized. In 70 chapters, the book covers the achievements in research and development made in India for the past 75 years in various organizations including research institutes, agricultural universities and private sector laboratories. Spices are natural products of plant origin used primarily for flavouring and seasoning or for adding pungency and flavour to foods and beverages. The flavour and fragrance of Indian spices had a magic spell on human culture since very ancient days. The importance of spices in Indian life and its contribution to the economy are substantial. India, as the world's

the untapped potential of natural products in combating some of the most challenging diseases affecting human health today It will serve as a comprehensive reference for researchers healthcare professionals and students interested in the therapeutic use of plant based compounds and contribute to the advancement of integrative medicine Hazardous and Trace Materials in Soil and Plants M. Naeem,Tariq Aftab,Abid Ali Ansari,Sarvajeet Singh Gill,Anca Macovei,2022-08-13

Hazardous and Trace Materials in Soil and Plants Sources Effects and Management explores the latest advancements in reducing avoiding and eliminating soil contaminants that challenge the health and safety of agricultural plants With a focus on minimizing the production of those hazardous substances controlling their distribution and ensuring safe utilization the book explores each contributing area and provides insights toward improved sustainable and secure production This is an excellent reference resource on both current research and future directions from laboratory research to field applications The combined impacts of climate change and industrialization have led to increased and diversified threats to the health of the soil in which our food crops are grown as well as in the plants themselves This dual hazard scenario is increasingly recognized as a threat to not just the environment but to global food security as agricultural soils contaminated with pollutants alter plant metabolism thus resulting in reduced crop quality and production quantity Addresses the challenges of mitigating toxic substances in plants including agricultural crops Presents current status and future prospects for managing biotic and abiotic environmental stress factors through plant stress tolerance mechanisms Includes chapters that address both biotic and abiotic stresses agricultural and environmental science toxicology biotechnology nanotechnology and molecular studies Integrates insights and developments between environmental and plant science **Production**

Technology of Stone Fruits Mohammad Maqbool Mir,Umar Iqbal,Shabir Ahmad Mir,2021-01-04 Globally stone fruits are emerging in the market due to the increased consumer s desire for health promoting foods Stone fruits attract research attention mainly due to the cultural and commercial aspects of the array of varieties that are grown Being grown in wide range of environments it is very important to understand what factors influence the production and quality attributes of stone fruits There is a lack of systematic scientific information on strategic approach for production technologies of such fruits This book will be first of its kind focusing on technological aspects of stone fruits especially on latest developments in present day horticulture It will be an essential reference for professionals including academicians scholars researchers and industries working in the said area We hope that readers will find this book a useful resource for their research or studies and it will be helpful in the development of high quality stone fruits in future which will improve the economic and social life of people Besides this book fulfills the needs of a number of horticultural courses of Universities and will serving as a pomological manual for all occasions Advances in Nano-Fertilizers and Nano-Pesticides in Agriculture Sudisha Jogaiah,Harikesh Bahadur Singh,Leonardo Fernandes Fraceto,Renata De Lima,2020-11-26 Advances in Nano fertilizers and Nano pesticides in Agriculture A Smart Delivery System for Crop Improvement explores the use of nanotechnology for the controlled delivery of

pesticides herbicides and fertilizers that improve the safety of products while also increasing the efficiency of food production and decreased environmental pollution The development of nanodevices such as smart delivery systems to target specific sites as well as nanocarriers for chemical controlled release are currently important aspects in novel agriculture and require a strong foundation of understanding not only the technology but also the resulting impacts Fills key knowledge gaps of bio nanotechnology how they interact with plant cells and their biological consequences Focuses on agro nanotechnology which can be utilized for developing healthy seeds Explores the possibilities of macronutrient nano based fertilizers
