**Supports** Georgianna Martin, Sonja Ardoin, 2023-07-03 Historically higher education was designed for a narrow pool of privileged students. Despite national state and institutional policies developed over time to improve access, higher education has only lately begun to address how its unexamined assumptions, practices, and climate create barriers for poor and working class populations and lead to significant disparities in degree completion across social classes. The data shows that higher education substantially fails to provide poor and working class students with the necessary support to achieve the social mobility and success comparable to the attainments of their middle and upper class peers. This book presents a comprehensive range of strategies that provide the fundamental supports that poor and working class students need to succeed while at the same time dismantling the inequitable barriers that make college difficult to navigate. Drawing on the concept of the student-ready college and on emerging research and practices that colleges and universities can use to explore campus-specific social class issues and identify barriers, this book provides examples of support programs and services across the field of higher education at both two- and four-year public and private institutions that cover Access supports, Examples and recommendations for how institutions can assist students as they make decisions about applications and admission, Basic needs supports, Covering housing and food security, necessary clothing, sense of belonging through co-curricular engagement and mental health resources, Academic and learning supports, Describes courses and academic programs to promote full engagement among poor and working class students, Advising supports, Illustrates advising that acknowledges poor and working class students' identities and recommends continued training for both staff and faculty advisors, Supports for specific populations at the intersection of social class with other identities such as Students of Color, foster youth, LGBTQ, and doctoral students, Gaining support through external partnerships with social services, business entities, and fundraising. This book is addressed to administrators, educators, and student affairs personnel, urging them to make the institutional commitment to enhance the college experience for poor and working class students who not only represent a substantial proportion of college students today but constitute a significant future demographic. *Write Yourself In* Eric Tipler, 2024-06-11 Write authentic, memorable college essays that will help you get into the right school for you with this guidebook from a veteran college admissions expert. Every spring, over one million high school juniors embark on an annual rite of passage: applying to college. And with college admission rates at an all-time low, getting into a competitive school is now tougher than ever. At the top schools, a strong transcript and great test scores will get your application noticed, but it's your essays and the personal story that they highlight that will get you admitted. But often, students don't know where to start. Teens fret over topics because they don't know what college admissions officers are looking for. They bend over backwards to write what they think colleges want to read instead of telling their authentic story, which is what admissions officers actually want in a way that will resonate with their readers. They also struggle because college essays, which are narrative, first-person, and introspective, require a different set of skills from academic, expository writing. They've been

learning for years in the classroom Seasoned college admissions expert and educator Eric Tipler has seen this firsthand Teens and their parents spend countless anxiety filled hours crafting and refining essays that are often lackluster In *Write Yourself In* Tipler meets students where they are and provides comprehensive actionable advice in a warm and conversational tone He demonstrates how to craft a winning essay one that is authentic vulnerable and demonstrative of qualities like personal growth and emotional maturity Instead of formulas *Write Yourself In* gives students step by step processes for brainstorming outlining writing and revising essays It encourages them to seek out feedback at key points in the process something Tipler has found to be vital to helping students produce their best writing Further the book includes sidebars that teach essential components of good storytelling a secret weapon in the admissions process In addition to the admissions essay *Write Yourself In* also covers the most common supplemental essays on topics like community diversity openness to others viewpoints and why their school is a good fit for the student scholarship essays as well as scholarship essays Tipler includes sections that address current topics like the widespread use of ChatGPT and the discussion of race in the admissions essay a facet of the student s application that will have newfound importance given the Supreme Court decision on affirmative action Written with both the parent and teen in mind *Write Yourself In* is the go to handbook for writing a great college essay

*Teaching the Anti-Essay* Wesley Phillipson, 2025-10-07 *Teaching the Anti Essay* helps secondary school English Language Arts ELA teachers introduce literary nonfiction and creative nonfiction essay writing to their students demonstrating how writing is a fun and engaging activity where students can see tremendous value in thinking on paper Meaningful essays are also by default analytical This book offers English teachers and their students 18 different essay prompts that challenge student writers to take calculated risks on paper leading to essays that students can write and want to write allowing them to add something new to the conversation in the process Each chapter explores a unique essay prompt along with rationale the targeted skills teacher models student models and reflections The book is intended to be a tool for change in the English classroom at large by motivating students through tried and tested prompts demonstrating that anyone can write like a journalist a professional blogger a creative nonfiction essayist becoming an author with one s own voice and style This is a great resource for in service middle school and high school ELA teachers and beyond
