### **Higher Education, Community Engagement and Entrepreneurship in Southern Africa** I. G. Govender, 2021-02-24

This volume explores the pressing issues of entrepreneurship education and development in Southern Africa. It discusses the various roles of higher education institutions in enhancing entrepreneurship in localised communities and provides a systematic solution for improving the Southern African economy by realising the importance of empowering the youth with entrepreneurial skills. In addition, successful development requires effective policies and contemporary approaches to both community engagement and entrepreneurship management. The book uses different Southern African case studies to discuss the various issues and innovations in entrepreneurship in the country. Deanship in the Global South Oliver J.J.

Seale, 2021-02-08 The university today is a postmodern neo liberal competitive boundary less knowledge conglomerate a far cry from its historical traditional classical and collegial roots. There is a body of literature on deanship that points to its evolving nature in the contemporary academe characterised by complexity and change. Balancing academic demands simultaneously with the requirements for effective performance leadership and management lies at the heart of this very challenging bridging role nowadays. Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems. Deans nowadays are required to be more than collegial intellectual leaders. They are also meant to be fiscal and human resource experts fundraisers politicians and diplomats. Deanship in the Global South: Bridging Troubled Waters is about the deans' lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account. Their lack of preparation and inadequate support points to the need for a more strategic integrated approach to leadership development within their critical bridging roles between the academe and administration.

Democracy's Infrastructure Antina von Schnitzler, 2016-10-25 In the past decade South Africa's miracle transition has been interrupted by waves of protests in relation to basic services such as water and electricity Less visibly the post apartheid period has witnessed widespread illicit acts involving infrastructure including the nonpayment of service charges the bypassing of metering devices and illegal connections to services Democracy's Infrastructure shows how such administrative links to the state became a central political terrain during the antiapartheid struggle and how this terrain persists in the post apartheid present Focusing on conflicts surrounding prepaid water meters Antina von Schnitzler examines the techno political forms through which democracy takes shape Von Schnitzler explores a controversial project to install prepaid water meters in Soweto one of many efforts to curb the nonpayment of service charges that began during the antiapartheid struggle and she traces how infrastructure payment and technical procedures become sites where citizenship is mediated and contested She follows engineers utility officials and local bureaucrats as they consider ways to prompt Sowetans to pay for water and she shows how local residents and activists wrestle with the constraints imposed by meters This investigation of democracy from the perspective of infrastructure reframes the conventional story of South Africa's transition foregrounding the less visible remainders of apartheid and challenging readers to think in more material terms about citizenship and activism in the postcolonial world Democracy's Infrastructure examines how seemingly mundane technological domains become charged territory for struggles over South Africa's political transformation

The Self-Field Chris Abel, 2021-03-15 In this incisive study of the biological and cultural origins of the human self the author challenges readers to re think ideas about the self and consciousness as being exclusive to humans In their place he expounds a metatheoretical approach to the self as a purposeful system of extended cognition common to animal life the invisible medium maintaining mind body and environment as an integrated field of being Supported by recent research in evolutionary and developmental studies together with related discoveries in animal behaviour and the neurosciences the author examines the factors that have shaped the evolution of the animal self across widely different species and times through to the modern technologically enmeshed human self the differences between which he contends are relations of degree rather than absolute differences We are he concludes instinctive and fuzzy individuals clinging to fragile identities in an artificial and volatile world of humanity's own making but which we now struggle to control This book which restores the self to its fundamental place in identity formation will be of great interest for students and academics in the fields of social developmental and environmental psychology together with readers from other disciplines in the humanities especially philosophy cultural theory and architecture

digital cultures in an African context      Research Division Bulletin ,1970      Year of Fire, Year of Ash Baruch Hirson,2016-06-15 We can say without fear of being contradicted by history that June 16 1976 heralded the beginning of the end of the centuries old white rule in this country Nelson Mandela Originally banned on publication by the apartheid government Year of Fire Year of Ash is an eye opening account of how in June 1976 20 000 school students faced down the tanks and guns of a vicious racist regime in a revolt that galvanized the black working class and became a pivotal turning point for the anti apartheid movement More than this the book overturns much of the conventional logic that served to explain the event at the time showing it was not simply a student protest but part of a wider uprising Released in this new edition to mark the fortieth anniversary Year of Fire Year of Ash provides an unparalleled insight into the origins and events of the uprising from its antecedents in the 1920s to its role in inspiring global solidarity against apartheid As South Africa experiences a new wave of popular discontent and as new forms of black consciousness come to the fore in movements around the world Baruch Hirson s book provides a timely reminder of the Soweto revolt s continued significance to struggles against oppression today      The Stock Exchange Official Intelligence for ... ,1927      **Small Dictionaries and Curiosity** John P.
