Additive Manufacturing: Materials, Processes, Quantifications and Applications Jing Zhang, Yeon-Gil Jung, 2018-05-17

Additive Manufacturing Materials Processes Quantifications and Applications is designed to explain the engineering aspects and physical principles of available AM technologies and their most relevant applications. It begins with a review of the recent developments in this technology and then progresses to a discussion of the criteria needed to successfully select an AM technology for the embodiment of a particular design, discussing material compatibility, interfaces, issues, and strength requirements. The book concludes with a review of the applications in various industries, including bio energy, aerospace, and electronics. This book will be a must read for those interested in a practical, comprehensive introduction to additive manufacturing, an area with tremendous potential for producing high value, complex, individually customized parts. As 3D printing technology advances, both in hardware and software, together with reduced materials cost and complexity of creating 3D printed items, these applications are quickly expanding into the mass market. Includes a discussion of the historical development and physical principles of current AM technologies. Exposes readers to the engineering principles for evaluating and quantifying AM technologies. Explores the uses of Additive Manufacturing in various industries, most notably aerospace, medical, energy, and electronics.

Paper-based Diagnostics Kevin J. Land, 2018-12-11. This book explores the status of paper based diagnostic solutions or Microfluidics 2.0. The contributors explore how paper based tests can be widely distributed and utilized by semi skilled personnel, how close to commercial applications the technology has become, and what is still required to make paper based diagnostics the game changer it can be. The technology is examined through the lens of the World Health Organization's ASSURED criteria for low resource countries: Affordable, Sensitive, Specific, User friendly, Rapid, and robust, Equipment free, and Deliverable to end users. Its applications have to include health technology, environmental technology, food safety, and more. This book is appropriate for researchers in these areas, as well as those interested in microfluidics, and includes chapters dedicated to principles such as theory of flow and surface treatments, components such as biomarkers and detection, and current methods of manufacturing. Discusses how paper based diagnostics can be used in developing countries by comparing current diagnostic tests with the World Health Organization's ASSURED criteria. Examines how paper based diagnostics could be integrated with other technologies such as printed electronics and the Internet of Things. Outlines how semi skilled personnel across a variety of fields can implement paper based diagnostics.

Modified Nanomaterials for Environmental Applications Onoyivwe Monday Ama, Suprakas Sinha Ray, Peter

Ogbemudia Osifo, 2021-11-16. This book focuses on the electrochemical and nanostructural properties of new photoanode electrolyte combinations used in the development of novel surface modified nanomaterials for environmental applications. As water treatment is rapidly becoming a global challenge due to the increasing complexity and number of the various pollutants, present the book explores fundamental issues relating to environmental applications of nanomaterials. It addresses

relevant topics ranging from electrochemical synthesis and characterization to applications of photoanodes in corrosion prevention and biosensors for wastewater treatment Featuring up to date experimental results on nanomaterials for detection of pharmaceuticals and heavy metals in wastewater this contributed volume is useful to electrochemical researchers materials scientists and chemical and civil engineers interested in advanced photoelectrochemical research for environmental applications

Enhanced Chitosan Material for Water Treatment Ephraim Igberase, Peter Ogbemudia Osifo, Tumiasang Seodigeng, Ikenna Emeji, 2021-04-29 This book reviews some of the latest developments in the field of water treatment using multi functional chitosan based materials It covers the production of chitosan beads and membranes from chitosan powder as well as modification techniques for enhancing the material for commercial and industrial purposes The book summarizes the results of experimental adsorption desorption studies for elucidating the underlying reaction mechanism of heavy metal removal from wastewater presenting an advanced overview of an array of characterization techniques such as Fourier transform infrared spectroscopy thermogravimetric analysis x ray diffraction and scanning electron microscopy Additionally it features a look at the development and application of specialized engineering software and image analysis for modelling the kinetics of adsorption This book is ideal for scientists and engineers working in the broader field of environmental materials science It is all well suited for chemists as well as industrial and civil engineers interested in wastewater treatment and mitigation of water pollution

Deanship in the Global South Oliver J.J. Seale, 2021-02-08 The university today is a postmodern neo liberal competitive boundary less knowledge conglomerate a far cry from its historical traditional classical and collegial roots There is a body of literature on deanship that points to its evolving nature in the contemporary academe characterised by complexity and change Balancing academic demands simultaneously with the requirements for effective performance leadership and management lies at the heart of this very challenging bridging role nowadays Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems Deans nowadays are required to be more than collegial intellectual leaders They are also meant to be fiscal and human resource experts fundraisers politicians and diplomats Deanship in the Global South Bridging Troubled Waters is about the deans lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account Their lack of preparation and inadequate support points to the need for a more strategic integrated approach to leadership development within their critical bridging roles between the academe and administration

Corrupted Jonathan D Jansen, 2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially

for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly *Contextualised Critical Reflections on Academic Development Practices* Teboho Pitso, 2021-04-20 This book offers insightful reflections on academic development practices The contributors engage the reader painstakingly in the dynamics of professional learning and effective teaching This volume facilitates the examination of the need for reflection that leads to professional maturity All educational institutions seek teachers who continuously search for effective strategies in improving student success The contributors uncover a variety of approaches as they evince proven suggestions The chapters are refreshing and edifying This book is essential for all teachers lecturers and trainers who want to improve their teaching practice immensely Professor Vuyisile T Msila Researcher at the Thabo Mbeki African School of Public and International Affairs University of South Africa Quantitative Genetics, Genomics and Plant Breeding, 2nd Edition Manjit S. Visual Cultures of Africa Mary Clare Kidenda, Lize Kriel, Ernst Wagner, 2022-04-06 The voices in this book offer a multi-perspectival approach to Africa focusing on the skills and the knowledge underpinning visual cultural expressions ranging from Akan symbolism to embodied performances by dancers and storytellers even re-designed models of Western cars. Educators, designers, artists, critics, curators and custodians based both in Africa and in Europe are configuring spaces for public, private, institutional as well as digital conversation whether through pottery or portraiture, furniture or film, shoes or selfies, buildings or books. Readers are encouraged to question how African visual cultures are both in and of identifying and confrontational, post and decolonial, preserved and practised, old and new, borrowed and authentic, composite and complete, rooted and soaring. Disciplines being engaged include visual culture studies, media studies, performance studies, orature, literature, art and design as well as their histories. The editors Mary Clare Kidenda, Lize Kriel and Ernst Wagner represent three nodes in the Exploring Visual Cultures north-south collaborative network: The Technical University of Kenya, the University of Pretoria in South Africa and Munich Academy of Fine Arts in Germany.

Green Economy in the Transport Sector John Ogony Odiyo, Peter Bitta Bikam, James Chakwizira, 2021-12-08 This open access book is interdisciplinary and provides cross-sectoral and multi-dimensional exploration of sustainable development and transportation in South Africa. Drawing on work from different disciplines, the book contributes not only to academia but also seeks to inform urban and regional policy with the view of contributing to the national aspirations of South Africa as espoused in the National Development Plan (NDP) 2030, National Spatial Development Framework (NSDF) Draft 2019, National Climate Change Adaptation Strategy (NCASS) Draft 2019, Green Transport Strategy for South Africa 2018-2050 and National Transportation Plan (NATMAP) 2050. Adopting a multi-dimensional assessment, the book provides a background for co-production concerning climate change, sustainable development and transportation in the Global South. The book contributes in its analysis of the institutional and legislative framework that relates to the climate change skills and knowledge transfer, sustainable development and transportation in South Africa as these are responsible for the evolution of the green economy and transport sector in the country. The connections among different sectors and issues such as environment, transport modes, technology, innovation, vehicle management and emission control, skills and knowledge transfer, legislative and policy framework and the wider objectives of the sustainable development goals (SDGs) especially goals 11 to 13. The success stories relating to climate change, sustainable development and transportation in South Africa are identified together with the best possible practices that may inform better environmental, urban and regional planning, policy practice and management.

English-Medium Instruction from an English as a Lingua Franca Perspective Kumiko Murata, 2018-08-06 English is increasingly used as a lingua franca (ELF) in communicative situations the world over with the acceleration of globalisation. This is in line with the increased introduction of English medium instruction (EMI) to higher education institutions in many

parts of the world to further promote both students and faculty's mobility to make them competitive and employable in the globalised world and to make their institutions more attractive and reputable EMI and ELF however are rarely explicitly investigated together despite the fact that the spread of EMI cannot be separated from that of ELF This volume tackles the issue head on by focusing on EMI in higher education from an ELF perspective The volume includes contributions by Asian European Middle Eastern South American and Anglo American scholars It discusses language policies attitudes and identities analyses of classroom EMI practices case studies and finally pedagogical implications from an ELF perspective incorporating also theoretical and empirical issues in conducting EMI courses programmes The volume will be of great interest and use not only to those who are conducting research on ELF EMI CLIL language policy and related fields but also to classroom teachers and policy makers who are conducting and or planning to start EMI courses programmes in their institutions or countries all over the world

Utilisation of South African Research on Higher Education Jan Botha ,Gabriele Vilyte ,2021-10-26 The relationship between research on the one hand and policy practice on the other hand is complicated and collaboration between scholars in research on higher education RHE and institutional research IR practitioners is often lacking This book marks a collaborative effort of a diverse range of South African RHE and IR scholars and asks the overarching questions What do we know about the utilisation of South African research on higher education SARHE and its subset of research known as Institutional Research How and by whom is this research used The book begins by looking at the historical underpinnings of SARHE and delineating the shape and size of this body of research This is followed by a series of case studies on South African Higher Education institutions and governmental bodies investigating how when and by whom are research on higher education and institutional research used in the decision making of these organisations This book is the first of its kind in South Africa and sets out to lay the groundwork for further research into the use uptake and utilisation of RHE and IR in this country
