Focus on South Africa and Zimbabwe Talkmore Chidede, 2016-06-02 This study undertakes a critical assessment of the legal protection of foreign direct investments FDI in South Africa and Zimbabwe by determining their compliance with the international minimum standards norms and or best practices on the legal protection of FDI by host states Firstly the study argues that foreign investment is much needed in South Africa and Zimbabwe to improve economic growth and development to create jobs and to increase their competitiveness However these benefits are not accrued automatically but rather host states need to create an enabling environment to receive such benefits Thus host states need to put an investment scheme into operation to guarantee the legal protection of foreign investments South Africa and Zimbabwe have at large crafted and implemented investment laws and related policies which tend to be hostile towards foreign investments Therefore similar investment laws and related policies in both jurisdictions are analysed This study will also offer recommendations for a legal investment which is not only flexible friendly and favourable to foreign investment in South Africa and Zimbabwe but also advances their local economic policies *New Statesman*, 1925 [Catalog of Copyright Entries.
