- What is the main topic? What issue/problem is the author (Madison) trying to address?

The instability of the current council in the US colonies; complaints from the public in response to the government being unstable; public goods are being neglected in replacement of the rivaling parties; decisions being made by the interest of the majority instead of the good of a people

- How does Madison define a faction?
 - What is the oldest and most common faction?

Number of citizens who are united, actuated by a common printerest and passion, and against the general benefits of a larger community; destroy the liberty (essential to its existence) or give all citizens same options; most common and oldest the unequal distribution of property

- What are the possible solutions to factions Madison explores?
 - Which solutions does he reject? Why?

Creating a democracy, as it is more privy to danger, turbulence, and is incompatible with the security of people

- Which solutions does he endorse? Why?

The creation of a republic, as all points in apure democracy

- What are the differences between a Democracy and Republic?
 - How does he define a Democracy?

Society consisting of small number of citizens who create and lead a government itself

- How does he define a Republic?

Government when representation takes place and promises a cure to their solution

- Which does Madison prefer? Why?

Republic, because it is safer that the decisions of a government is set into a smaller amount of people and the factious majority is unable to betray the wishes of a people.

- What does Madison ultimately conclude? What solution does he propose to the problem he tries to address?

Madison concludes that a republic is the best solution to a faction. "Republican remedy for diseases to republican government"

 Since then ICONIP has consistently provided prestigious opportunities for presenting and exchanging ideas on neural
 networks and related fields Research fields covered by ICONIP have now expanded to include such fields as bioinformatics brain
 machine interfaces robotics and computational intelligence We had 288 ordinary paper submissions and 3 special organized
 session proposals Although the quality of submitted papers on the average was exceptionally high only 60% of them were
 accepted after rigorous reviews each paper being reviewed by three reviewers Concerning special organized session proposals
 two out of three were accepted In addition to ordinary submitted papers we invited 15 special organized sessions organized
 by leading researchers in emerging fields to promote future expansion of neural information processing ICONIP 2007 was held
 at the newly established Kitakyushu Science and Research Park in Kitakyushu Japan Its theme was Towards an Integrated
