## Foreword

IEC Technologies specialises in providing high quality some of the best technical training workshops to engineers, scientists and technicians throughout the world. More than 70,000 engineers have attended IEC's workshops over the past 10 years. The tremendous success of the technical training workshops is based in part on the enormous investment IEC puts into constant review and updating of the workshops, an unwavering commitment to the highest quality standards and most importantly - enthusiastically - experienced IEC engineers who present the workshops and keep up-to-date with technology work.

The objective of this booklet is to provide today's engineer with useful technical information and so an able resource when you need to refresh your memory.

Concepts which are important and useful to the engineers, scientists and technicians, independent of discipline, are covered in this useful booklet.

Although IEC Technologies was founded in Western Australia many years ago, it now serves engineers from all countries. IEC Technologies currently has offices in Australia, Canada, Ireland, Malaysia, New Zealand, Singapore, South Africa, U.K. and USA.

We have produced this booklet so that you will get an in-depth, practical coverage of Communications, LANs and PC/PDP topics.
