WORKSHEETS & ANSWER KEYS

Plato was an Ancient Greek philosopher and mathematician. He was born in Athens in 427 BCE, and he died in 347 BCE. Plato grew up and went to school in Athens. Plato was a student of the famous philosopher, Socrates. Philosophy is the study of human thought. Plato was among several close followers of Socrates. Socrates was sentenced to death for disturbing the youth of Athens in 399 BCE. The death of Socrates had a lasting impact on Plato. After Socrates died, Plato chose not to enter public life but instead to travel and study with other cultures of the known world. Plato went to Egypt and North Africa, while traveling, Plato wrote his more famous works called dialogues. Socrates was usually the main character of Plato's dialogues. Because of Plato that we know so much about the life and teachings of Socrates. After traveling and writing, Plato returned to Athens and a school called the Academy. Aristotle, a famous Greek philosopher, was one of Plato's students at the Academy. Historians don't know about Plato's death except that he was around 80 years old. His teachings are still studied by political science and philosophy.
