Ronald Reagan David T. Byrne,2018 In this ambitious work David Byrne analyzes the ideas that informed Ronald Reagan's political philosophy and policies Rather than appraising his personal and emotional life Byrne's intellectual biography goes one step further it establishes a rationale for the former president's motives discussing how thinkers such as Plato and Adam Smith influenced him Byrne points to three historical forces that shaped Reagan's political philosophy Christian values particularly the concept of a universal kingdom of God America's firm belief in freedom as the greatest political value and its aversion to strong centralized governments and the appeasement era of World War II which stimulated Reagan's aggressive and confrontational foreign policy Byrne's account of the fortieth president augments previous work on Reagan with a new model for understanding him Byrne shows how Reagan took conservatism and the Republican Party in a new direction departing from the traditional conservatism of Edmund Burke and Russell Kirk His desire to spread a Kingdom of Freedom both at home and abroad changed America's political landscape forever and inspired a new conservatism that persists to this day *Reading Plato's Dialogues to Enhance Learning and Inquiry* Mason Marshall,2020-12-29 This scholarly volume proposes protreptic as a radically new way of reading Plato's dialogues leading to enhanced student engagement in learning and inquiry Through analysis of Platonic dialogues including Crito Euthyphro Meno and Republic the text highlights Socrates ways of fostering and encouraging self examination and conscientious reflection By focusing his work on Socrates use of protreptic Marshall proposes a practical approach to reading Plato illustrating how his writings can be used to enhance intrinsic motivation amongst students and help them develop the thinking skills required for democratic and civic engagement This engaging volume will be of interest to doctoral students researchers and scholars concerned with Plato's dialogues the philosophy of education and ancient philosophy more broadly as well as post graduate students interested in moral and values education research [History of Computing and Education 3 \(HCE3\)](#) John Impagliazzo,2008-07-05 These proceedings derive from an international conference on the history of computing and education This conference is the third of hopefully a series of conferences that will take place within the International Federation for Information Processing IFIP and hence we describe it as the Third IFIP Conference on the History of Computing and Education or simply History of Computing and Education 3 HCE3 This volume consists of a collection of articles presented at the HCE3 conference held in association with the IFIP 2008 World Computer Congress in Milano Italy Articles range from a wide variety of computing perspectives and they represent activities from six continents The HCE3 conference is an event of the IFIP Working Group 9.7 on the History of Computing a working group of IFIP's Technical Committee 9 TC9 on the Relationship between Computers and Society In addition it is in cooperation with the IFIP Technical Committee 3 TC3 on Education The HCE3 conference brings to light a broad spectrum of issues It illustrates topics in computing as they occurred in the early days of computing whose ramifications or overtones remain with us today Indeed

many of the early challenges remain part of our educational tapestry most likely many will evolve into future challenges Therefore these proceedings provide additional value to the reader as it will reflect in part the future development of computing and education to stimulate new ideas and models in educational development

The History of American Art Education Peter Smith, 1996-07-22 The ideas people and events that developed art education are described and analyzed so that art educators and educators in general will have a better understanding of what has happened and is happening to visual art in the schools Peter Smith raises the issue of art education's inordinate emphasis on Eurocentric art He challenges the often expressed notion that the field of education is the cause of art education's problems and proposes that confused conceptions within the art world are just as much a root of the difficulty No other book in art education history gives such close and analytical attention to the careers of women in the field The materials on Germanic cultural and historical influences are unequalled as is the scholarly treatment of Viktor Lowenfeld probably the most influential single figure in 20th century American art education
