Ingram, Klára Tarkó, Susan L. the diverse needs of women as well as a look at female innovation that is also often overlooked in leisure research The book includes examples of both applied and conceptual chapters from global perspectives in academic studies The Routledge Companion to Religion and Popular Culture John C. Lyden, Eric Michael Mazur, 2015-03-27 Religion and popular culture is a fast growing field that spans a variety of disciplines This volume offers the first real survey of the field to date and provides a guide for the work of future scholars It explores key issues of definition and of methodology religious encounters with popular culture across media material culture and space ranging from videogames and social networks to cooking and kitsch architecture and national monuments representations of religious traditions in the media and popular culture including important non Western spheres such as Bollywood This Companion will serve as an enjoyable and informative resource for students and a stimulus to future scholarly work The Immeasurable World William Atkins, 2018-07-24 Winner of the Stanford Dolman Travel Book of the Year UK William Atkins is an erudite writer with a wonderful wit and gaze and this is a new and exciting beast of a travel book Joy Williams In the classic literary tradition of Bruce Chatwin and Geoff Dyer a rich and exquisitely written account of travels in eight deserts on five continents that evokes the timeless allure of these remote and forbidding places One third of the earth's surface is classified as desert Restless unhappy in love and intrigued by the Desert Fathers who forged Christian monasticism in the Egyptian desert William Atkins decided to travel in eight of the world's driest hottest places the Empty Quarter of Oman the Gobi Desert and Taklamakan deserts of northwest China the Great Victoria Desert of Australia the man made desert of the Aral Sea in Kazakhstan the Black Rock and Sonoran Deserts of the American Southwest and Egypt's Eastern Desert Each of his travel narratives effortlessly weaves aspects of natural history historical background and present day reportage into a compelling tapestry that reveals the human appeal of these often inhuman landscapes Move Fast and Break Things Jonathan Taplin, 2017-04-18 The book that started the Techlash A stinging polemic that traces the destructive monopolization of the Internet by Google Facebook and Amazon and that proposes a new future for musicians journalists authors and filmmakers in the digital age Move Fast and Break Things is the riveting account of a small group of libertarian entrepreneurs who in the 1990s began to hijack the original decentralized vision of the Internet in the process creating three monopoly firms Facebook Amazon and Google that now determine the future of the music film television publishing and news industries Jonathan Taplin offers a succinct and powerful history of how online life began to be shaped around the values of the men who founded these companies including Peter Thiel and Larry Page overlooking piracy of books music and film while hiding behind opaque business practices and subordinating the privacy of individual users in order to create the surveillance marketing monoculture in which we now live The enormous profits that have come with this concentration of power tell their own story Since 2001 newspaper and music revenues have fallen by 70 percent book publishing film and television profits have also fallen dramatically Revenues at Google in this same period grew from 400 million to 74.5 billion Today Google's YouTube controls 60 percent of all streaming audio business but

pay for only 11 percent of the total streaming audio revenues artists receive More creative content is being consumed than ever before but less revenue is flowing to the creators and owners of that content The stakes here go far beyond the livelihood of any one musician or journalist As Taplin observes the fact that more and more Americans receive their news as well as music and other forms of entertainment from a small group of companies poses a real threat to democracy Move Fast and Break Things offers a vital forward thinking prescription for how artists can reclaim their audiences using knowledge of the past and a determination to work together Using his own half century career as a music and film producer and early pioneer of streaming video online Taplin offers new ways to think about the design of the World Wide Web and specifically the way we live with the firms that dominate it

Burning Man Linda Noveroske-Tritten, 2024-02-06 This book centers on a philosophical analysis of creative acts at the Burning Man Festival and their roles in wider social change With particular focus on the Ten Principles of Burning Man Linda Noveroske Tritten posits a re interpretation of common notions of self and other as they apply to identity difference and the ways that these personal impulses ripple outward from changing individuals into changing societies Such radical re imagination of ideology can be most powerful when it occurs in spaces of otherness of heterotopia This study casts Burning Man as a heterotopia not only to destabilize what we think we know about visual art performance and creative encounters but also bring these acts into an attitude of immediacy that facilitates previously unimagined behavior and opens out artistic drive into the unknown This book would be of value for scholars and practitioners in Performance Studies Theatre and Dance Art History Psychology Phenomenology Humanities Architecture and Urban Studies

Jones, 2011 Burning Man is the premier countercultural event of modern times growing over 25 years from a strange San Francisco beach party into an experimental city of 50 000 colorful souls in Nevada's Black Rock Desert which burns brightly for a week before dissolving into dusty memories and changed lives Longtime newspaper journalist Steven T Jones embedded himself in this blossoming culture starting in 2004 a dispiriting year for American politics but the beginning of Burning Man's renaissance when it exploded outward in unexpected ways The result is the most in depth book ever written on this intriguing social phenomenon The Tribes of Burning Man How An Experimental City in the Desert is Shaping the New American Counterculture which is being released in January 2011 by CCC Publishing From covering the Borg2 artists rebellion to learning how to make large scale fire sculptures with the Flaming Lotus Girls from helping Opulent Temple showcase the world's best DJs to cleaning up after Hurricane Katrina with Burners Without Borders from regularly interviewing event founder Larry Harvey to covering Barack Obama's nominating convention speech Jones gives readers an inside meticulously reported look at a time when Burning Man hit its zenith just as the country hit its nadir Hundreds of thousands of people from all over the world have made the dusty pilgrimage to Black Rock City to take part in

Desert Mementos Caleb S. Cage,2017-09-06 Desert Mementos is a collection of loosely connected short stories set during the early stages of the Iraq War 2004 and 2005 The stories rotate from battles with insurgents and the drudgery of the war machine in Iraq to Nevada where characters are either preparing for war escaping it during their leave or returning home having seen what they ve seen Cage captures similarities in the respective desert landscapes of both Iraq and Nevada but it is not just a study in contrasting landscapes The inter connected stories explore similarities and differences in human needs from the perspectives of vastly different cultures Specifically the stories deftly capture the overlap in the respective desert landscapes of each region the contrasting cultures and worldviews and the common need for hope Taken together the stories represent the arc of a year long deployment by young soldiers Cage s stories are bound together by the soldier s searing experiences in the desert bookended by leaving and returning home to Nevada which in many ways can be just as
